ENVIRONMENTAL HAZARD

This product is toxic to fish. Apply this product only as specified on this label. Do not contaminate water by cleaning of equipment, or disposal of wastes
NOTE: Do not discharge into lakes, streams, ponds, or public waters unless in accordance with a NPDES permit. For guidance, contact your regional office of the EPA.

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CHEMICAL AND PHYSICAL HAZARDS

Strong oxidizer, mix with water only. Reaction with combustible organic materials, bases, moisture or with oxidizers may generate heat, hazardous gases and, possibly, fire or explosion. Do not add to dispensers or other equipment that is not dry and clean of any chemical remnants. Does not burn, but will decompose, from about 325°F (160°C), releasing toxic gases. Avoid comminution and dusting

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.
STORAGE: Store in cool, dry, well-ventilated area, in well-closed original containers, away from energy sources, combustible organic materials, oxidizers, strong bases, and moisture. When handling or dealing with spills, use impact-resistant goggles with side-shields or face shield, body-covering clothes, including impervious rubber or plastic gloves and boots, use a dust respirator if dusting occurs.
PESTICIDE DISPOSAL: Pesticide or rinsate that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides.
CONTAINER DISPOSAL: Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner and punctured drum in a sanitary landfill or by incineration if allowed by State and local authorities, or if allowed by State and local authorities by burning. If burned stay out of smoke. Do not re-use container.
SPILLS: Sweep up dry solids and dispose of as described for pesticide disposal. If drum contents are contaminated or decomposing, do not reset container, isolate unsealed drum in the open or a well-ventilated area, flood with large volumes of water if necessary.
IN CASE OF FIRE: Do not use ammonium phosphate extinguisher near water and HALOGENE T-30. Hazardous reactions may occur.

STATEMENT OF PRACTICAL TREATMENT

- If in eyes: Flush eyes immediately with plenty of water for at least 15 minutes and get medical attention at once.
- If on skin: Wash immediately with soap and plenty of water. Remove and wash contaminated clothing before re-use.
- If inhaled: Remove person to fresh air immediately. Get medical attention at once.
- If swallowed: Give large amounts of water to dilute the toxicant. If immediately available, demulcents like milk, vegetable or egg whites can be given. Do not induce vomiting as it is likely to cause considerable mucosal damage.

Note to physician: Dilution of an ingested corrosive is a safer first aid treatment than emesis.
