

US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460	EPA REGISTRATION 8622-32	DATE OF ISSUANCE 21 MAY 1987
	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT Maloswim T-30	

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
 (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Ameribrom, Inc.
 1250 Broadway
 New York, NY 10001

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

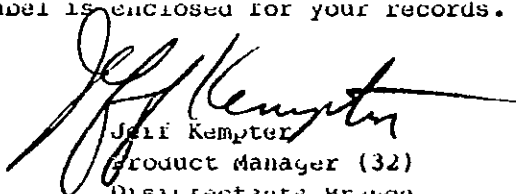

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 8622-32" to your label before you release the product for shipment.
3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

**PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS AND DOMESTIC ANIMALS**

DANGER
CORROSIVE
CAUSES SEVERE BURNS OF EYES
EYE CONTACT MAY CAUSE LOSS OF VISION
IRRITATING TO NOSE AND THROAT
MAY BURN THE SKIN - MAY BE
FATAL IF SWALLOWED

Do not Breathe Dust.
Do not Get in Eyes, on Skin, or on Clothing.
Impact resistant Goggles with Side Shields, or Face Shield,
and Rubber or Plastic Gloves Must be Worn When Handling.

ENVIRONMENTAL HAZARD

This product is toxic to fish. Apply this product only as specified on this label.
Do not contaminate water by charging of equipment, or disposal of wastes.
NOTE: Do not discharge into lakes, streams, ponds, or public waters unless in
accordance with a NPDES permit. For guidance, contact your regional office of the
EPA.

CHEMICAL AND PHYSICAL HAZARDS

Strong oxidizer, mix with water only. Reaction with combustible organic
materials, bases, moisture or with oxidizers may generate heat, hazardous gases and,
possibly, fire or explosion. Do not add to dispensers or other equipment that is
not dry and clean of any chemical remnants. Does not burn, but will decompose,
from about 325°F (160°C), releasing toxic gases. Avoid combustion and dusting.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.
STORAGE: Store in cool, dry, well-ventilated area, in well-closed original
containers, away from energy sources, combustible organic materials, oxidizers,
acids, bases, and moisture. When handling or dealing with spills, use impact-resistant
goggles with side shields or face shield, body covering clothes, including impervious
rubber or plastic gloves and boots, use a dust respirator if dusting occurs.
RESIDUE DISPOSAL: Pesticide wastes are acutely hazardous. Improper
disposal of these pesticides, spray mixtures, or residues is a violation of Federal Law.
If these wastes cannot be disposed of by use according to label instructions, contact
your State Pesticide or Environmental Control Agency, or the National Waste
and Hazardous Materials Administration for guidance.
CONTAINER DISPOSAL: Completely empty spray by shaking and tapping sides
of bottom to loosen clinging particles. Empty residue into application
equipment. Then dispose of line and punctured drum in a sanitary landfill or by
other action as allowed by State and local authorities, or, by burning. If burned,
they will smoke. Do not reuse containers.
TIPS: Sweep up dry spills and dispose of as described for pesticide disposal. If
from contents are contaminated or decomposing, do not reuse container; isolate
and dump in the open or a well-ventilated area; flood with large volumes of
water if necessary.
IF CASE OF FIRE: Do not use ammonium phosphate extinguisher near water and
oil. Hazardous reactions may occur.

DO NOT SMOKE, DRINK OR EAT WHEN HANDLING

KALOBROE T-30

KALOBROE TABLETS

BROMO-CHLORO-DIMETHYLMYLENANTOIN

A DISINFECTANT, SANITIZER, MICROBICIDAL BACTERICIDE,
FUNGICIDE, ALGICIDE AND ELIMINATOR
FOR TREATING COMMERCIAL AND RESIDENTIAL SWIMMING POOLS.

ACTIVE INGREDIENT: 1-Bromo-3-chloro-5,5-dimethylhydantoin..... 96%
INERT INGREDIENTS..... 4%

TOTAL 100%

KEEP OUT OF REACH OF CHILDREN

DANGER

CORROSIVE AND STRONG OXIDIZER

STATEMENT OF PRACTICAL TREATMENT

If in eyes: Flush eyes immediately with plenty of water for at least 15 minutes
and get medical attention at once.
If on skin: Wash immediately with soap and plenty of water. Remove and wash
contaminated clothing before reuse.
If inhaled: Remove person to fresh air immediately. Get medical attention at
once.
If swallowed: Give large amounts of water to dilute the toxicant.
If immediately available, desiccants like silica,
vegetable oil or egg whites can be given. Do not
induce vomiting as it is likely to cause
considerable stomach damage.

USE WITH ADEQUATE VENTILATION
WASH THOROUGHLY AFTER HANDLING

See side panels for additional precautionary statements

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product
in a manner inconsistent with its labeling.

Kalobroe is a safe and effective slow dissolving
bactericide, algicide, and disinfectant that unlike
other commonly used chemicals performs well over a
broad pH range. Use the dosages recorded below as
a guide in determining the proper amount of Kalobroe
necessary to keep your pool or spa sparkling clean
and inviting. The dosage necessary for your pool or
spa will change considerably depending upon those
factors that burden the disinfection system.

Some of the factors that will vary the required
dosages are water temperature, bather load, exposure
to windblown debris, thunder or rain storms and
length of filtration cycle.

SWIMMING POOLS

To establish an initial bromine residual, in newly
filled pools shock the pool using Kalobroe
Brominating Shock treatment. Follow directions for
use on the label of that product. This is to
establish an effective acting bromine residual of
between 2 and 3 ppm. Test water frequently using a
reliable Bromine Test Kit. Repeat dosage if required
until residual is established.

RESIDENTIAL SWIMMING POOLS

Add 15 tablets per 10,000 gallons every 5-7 days or
as needed to maintain a bromine residual of 2-3 ppm
at all times. Apply, weekly dose through the use of
floating tablet feeder such as the Multi-Chlor or an
automatic Brominator which will allow you to adjust
the amount of bromine entering the water.

COMMERCIAL SWIMMING POOLS

Add 20 tablet per 10,000 gallons every 5 to 7 days or
as needed to maintain an active bromine residual of
between 3 and 5 ppm at all times.

One tablet weighs 0.55 oz (16 grams).
