	TERM OF ISSUANCE	
NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)		
NAME OF PESTICIDE PRODUCT ...		

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

...

...

...

...

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Under the Act as amended, registrants are required to submit data...

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(1) when the Agency requires all registrants of similar products to submit such data.

2. Make the labeling changes listed below before you release the product for shipment:

- 1. ...
- 2. ...

3. Submit two (2) copies of your final printed labeling before you release the product for shipment. Refer to the 8-79 Enclosure for a further description of final printed labeling.

and Rubber or Plastic Gloves Must be Worn when Handling.**

Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARD

This product is toxic to fish. Apply this product only as specified on this label. Do not contaminate water by cleaning of equipment, or disposal of wastes.

NOTE: Do not discharge into lakes, streams, ponds, or public waters unless in accordance with a NPDES permit. For guidance, contact your regional office of the EPA.

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CHEMICAL AND PHYSICAL HAZARDS

Strong oxidizer, mix with water only. Reaction with combustible organic materials, bases, moisture or with oxidizers may generate heat, hazardous gases and, possibly, fire or explosion. Do not add to dispensers or other equipment that is not dry and clean of any chemical remnants. Does not burn, but will decompose, from about 325°F (160°C), releasing toxic gases. Avoid contamination and dusting.

This product because of its potent formulation can be dangerous if not used properly. Do not mix with any other chemicals. This could result in a violent chemical reaction and physical body injury. Do not add water to this product. Do not add this product to a small amount of water in a pail. Do not close a container containing this product and any amount of visible moisture or liquid, as gases generated may cause an explosion. Do not use in-house Use outdoors only where there is unrestricted ventilation.

CORROSIVE AND STRONG OXIDIZER

STATEMENT OF PRACTICAL TREATMENT

- If in eyes: Flush eyes immediately with plenty of water for at least 15 minutes and get medical attention at once.
- If on skin: Wash immediately with soap and plenty of water. Remove and wash contaminated clothing before re-use.
- If swallowed: Only after giving raw egg whites or milk and two glasses of water induce vomiting by sticking finger down throat, if needed. Repeat giving egg whites or milk and glasses of water until vomit is clear. Call a physician. Never give anything by mouth to an unconscious person.
- If inhaled: Remove person to fresh air immediately. Get medical attention at once.

Note to physician:

Dilution of an ingested corrosive is a safer first aid treatment than emesis.

USE WITH ADEQUATE VENTILATION

WASH THOROUGHLY AFTER HANDLING

KEEP CONTAINER TIGHTLY CLOSED WHEN NOT IN USE

SPECIAL PRECAUTIONS (PLEASE READ)

- 1) This product has a powerful bromine odor. Hold away from face when opening to avoid breathing fumes.
- 2) When adding this product to a skimmer or a feeder make sure there are no other chemicals present, as a violent reaction may occur. It is always dangerous to mix chemicals.
- 3) Use this product as directed on label. Do not take advice from other or experiment by yourself.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Read all direction first before proceeding with module use. Proceed outdoors only where there is unrestricted ventilation.

Shut off pump and place control lever in low position. Remove top of brominator and remove spent module. Avoid inhaling any residual gases that may be present in module.

Using a sharp knife and starting at the bottom, cut off both rows of tabs up to, and including, the two which gallon indication equals your pool or spa size. Align vertical slot in module with diverter valve and insert module into brominator. Replace top, start filter, move control toward high position. Brominator will now fill with water. In newly filled pools, keep control lever in high position until available bromine level is 2-3 ppm. Test water frequently with a reliable Bromine Test Kit. Move lever toward medium and adjust as necessary to maintain a permanent available bromine level of at least 2 ppm.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE:

Store in cool, dry, well-ventilated area, in well-closed original containers, away from energy sources, combustible organic materials, oxidizers, strong bases, and moisture. When handling or dealing with spills, use impact-resistant goggles with side-shields or face shield; body-covering clothes, including impervious rubber or plastic gloves and boots; use a dust respirator if dusting occurs.

PESTICIDE DISPOSAL:

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL:

Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner and punctured drum in a sanitary landfill or by incineration if allowed by State and local authorities, or, if allowed by State and local authorities, by burning. If burned stay out of smoke. Do not re-use container.

SPILLS:

Sweep up dry spills and dispose of as described for pesticide disposal. If drum contents are contaminated or decomposing, do not reseal container; isolate unsealed drum in the open or a well-ventilated area; flood with large volumes of water if necessary.

IN CASE OF FIRE:

Do not use ammonia phosphate extinguisher near water and HALOSWIFT-120L. Hazardous reactions may occur.

DO NOT SMOKE, DRINK OR EAT WHEN HANDLING
