<p>US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460</p> <p><b>NOTICE OF PESTICIDE:</b> <input checked="" type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION</p> <p><i>(Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)</i></p>	<p>EPA REGISTRATION NO. 8622-37</p> <p>DATE OF ISSUANCE 17 FEB 1987</p> <p>TERM OF ISSUANCE</p> <p>NAME OF PESTICIDE PRODUCT  HALOSWIM-T84</p>
<p>NAME AND ADDRESS OF REGISTRANT (Include ZIP code)</p> <p>Ameribrom, Inc. 1250 Broadway New York, NY 10001</p>	
<p><b>NOTE:</b> Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.</p>	
<p>On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.</p> <p>A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.</p> <p>Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p>This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:</p> <ol style="list-style-type: none"> <li>1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.</li> <li>2. Make the labeling changes listed below before you release the product for shipment:             <ol style="list-style-type: none"> <li>a. Add the phrase "EPA Registration No. 8622-37."</li> <li>b. Please note, 3 ounces are equivalent to 85 grams. Also, note the spelling of the word "grams."</li> </ol> </li> <li>3. Submit two (2) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.</li> </ol> <p><input type="checkbox"/> ATTACHMENT IS APPLICABLE</p>	
<p>SIGNATURE OF APPROVING OFFICIAL</p>	<p>DATE</p>

*Profile 2/11*

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

PRECAUTIONARY STATEMENTS  
HAZARD TO HUMANS AND DOMESTIC ANIMALS

DANGER

CORROSIVE

CAUSES SEVERE BURNS OF EYES  
EYE CONTACT MAY CAUSE LOSS OF VISION  
IRRITATING TO NOSE AND THROAT  
MAY BURN THE SKIN \* MAY BE  
FATAL IF SWALLOWED

Do Not Breathe Dust.

Do Not Get in Eyes, on Skin, or on Clothing.  
Impact-resistant Goggles with Side-shields, or Face Shield,  
and Rubber or Plastic Gloves Must be Worn when Handling.  
Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARD

This product is toxic to fish. Apply this product only as specified on this label. Do not contaminate water by cleaning of equipment, or disposal of wastes.

NOTE: Do not discharge into lakes, streams, ponds, or public waters unless in accordance with a NIDES permit. For guidance, contact your regional office of the EPA.

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CHEMICAL AND PHYSICAL HAZARDS

Strong oxidizer, mix with water only. Reaction with combustible organic materials, bases, moisture or with oxidizers may generate heat, hazardous gases and, possibly, fire or explosion. Do not add to dispensers or other equipment that is not dry and clean of any chemical remnants. Does not burn, but will decompose, from about 325°F (160°C), releasing toxic gases. Avoid contamination and dusting.

This product because of its potent formulation can be dangerous if not used properly. Do not mix with any other chemicals. This could result in a violent chemical reaction and physical body injury. Do not add water to this product. Do not add this product to a small amount of water in a pail. Do not close a container containing this product and any amount of visible moisture or liquid, as gases generated may cause an explosion. Do not use in-house Use outdoors only where there is unrestricted ventilation.

**STATEMENT OF PRACTICAL TREATMENT**

- If in eyes:** Flush eyes immediately with plenty of water for at least 15 minutes and get medical attention at once.
- If on skin:** Wash immediately with soap and plenty of water. Remove and wash contaminated clothing before re-use.
- If swallowed:** Only after giving raw egg whites or milk and two glasses of water induce vomiting by sticking finger down throat, if needed. Repeat giving egg whites or milk and glasses of water until vomit is clear. Call a physician. Never give anything by mouth to an unconscious person.
- If inhaled:** Remove person to fresh air immediately. Get medical attention at once.

**Note to**

**physician:** Dilution of an ingested corrosive is a safer first aid treatment than emesis.

**USE WITH ADEQUATE VENTILATION**

**WASH THOROUGHLY AFTER HANDLING**

**KEEP CONTAINER TIGHTLY CLOSED WHEN NOT IN USE**

**SPECIAL PRECAUTIONS (PLEASE READ)**

- 1) This product has a powerful bromine odor. Hold away from face when opening to avoid breathing fumes.
- 2) When adding this product to a skimmer or a feeder make sure there are no other chemicals present, as a violent reaction may occur. It is always dangerous to mix chemicals.
- 3) Use this product as directed on label. Do not take advice from other or experiment by yourself.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Halobrom is a safe and effective slow dissolving bacteriacide, algacide, and disinfectant that unlike other commonly used chemicals performs well over a broad pH range. Use the dosages recommended below as a guide in determining the proper amount of Halobrom necessary to keep your pool or spa sparkling clean and inviting. The dosage necessary for your pool or spa will change considerably depending upon those factors that burden the disinfection system.

Some of the factors that will vary the required dosages are water temperature, bather load, exposure to windblown debris, thunder or rain storms and length of filtration cycle.

SWIMMING POOLS

To establish an initial bromine residual, in newly filled pools shock the pool using Halobrom Brominating Shock treatment. Follow directions for use on the label of that product. This is to establish an effective acting bromine residual of between 2 and 3 ppm. Test water frequently using a reliable Bromine Test Kit. Repeat dosage if required until residual is established.

RESIDENTIAL SWIMMING POOLS

Add 5 tablets per 10,000 gallons every 5-7 days or as needed to maintain a bromine residual of 2-3 ppm at all times. Apply weekly dose through the use of floating tablet feeder such as the Multi-Chlor or an automatic Brominator which will allow you to adjust the amount of bromine entering the water.

COMMERCIAL SWIMMING POOLS

Add 9 tablet per 10,000 gallons every 5 to 7 days or as needed to maintain an active Bromine residual of between 3 and 5 ppm at all times.

SPAS AND HOT TUBS

Introduce 1 tablet per 300 gallons of spa water with the use of a floating tablet feeder or automatic Brominator installed on the spa equipment. Adjust tablet feeder or Brominator to attain an active bromine residual of at least 2 ppm. Maintain spa by adding 1 tablet per 300 gallons every 5-7 days or as needed to maintain an active bromine residual of 2 ppm at all times.

Spa water has a tendency to foam and cloud that is directly proportional to the amount of use it receives. This is due to the accumulation of body fats and oils and contaminants too small for the filtration equipment to remove, and to the rapid exhalation of total dissolved solids in the water. To a great extent, defoamer, clarifier, shock treatments and demineralizers or sequestering agents can be used to clear the water. When this becomes impossible, draining, cleaning and refilling the spa will be the most satisfactory way of solving this problem.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

**STORAGE:**

Store in cool, dry, well-ventilated area, in well-closed original containers, away from energy sources, combustible organic materials, oxidizers, strong bases, and moisture. When handling or dealing with spills, use impact-resistant goggles with side-shields or face shield; body-covering clothes, including impervious rubber or plastic gloves and boots; use a dust respirator if dusting occurs.

**PESTICIDE DISPOSAL:**

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**CONTAINER DISPOSAL:**

Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner and punctured drum in a sanitary landfill or by incineration if allowed by State and local authorities, or, if allowed by State and local authorities, by burning. If burned stay out of smoke. Do not re-use container.

**SPILLS:**

Sweep up dry spills and dispose of as described for pesticide disposal. If drum contents are contaminated or decomposing, do not reseal container; isolate unsealed drum in the open or a well-ventilated area; flood with large volumes of water if necessary.

**IN CASE OF FIRE:**

Do not use ammonium phosphate extinguisher near water and HALOSWINT<sup>®</sup> hazardous reactions may occur.

**DO NOT SMOKE, DRINK OR EAT WHEN HANDLING**
