

USE DIRECTIONS FOR CLEANING

Lightly soiled areas — surfaces to be cleaned should be mopped or brushed with a solution containing 3 ounces of **Pine Type Disinfectant** per gallon of water. Rinse cleaned area with water.

USE DIRECTIONS FOR DISINFECTION

To disinfect walls, floors and other hard surfaces in homes, schools, restaurants and rest rooms mop or brush surface to be treated with a solution containing 3 ounces of **Pine Type Disinfectant** per gallon of water.

Surfaces that are heavily soiled should be cleaned with 2 ounces of **Pine Type Disinfectant** per gallon of water and then disinfected. Those surfaces which may later come in contact with foods must be thoroughly scrubbed with detergents and rinsed with potable water prior to re-use.

SANITIZATION

To sanitize walls, floors and equipment first clean thoroughly with a detergent solution. Then apply **Pine Type Disinfectant** per gallon of water. If surface is heavily soiled, use **Pine Type Disinfectant** at a rate of 4 ounces per gallon to remove the soil before cleaning.

chem-clean's PINE TYPE DISINFECTANT

MANUFACTURED BY

Chem-Clean Incorporated
Greenville, South Carolina 29604

DEODORIZATION

To deodorize walls, floors and other hard surfaces mop or brush with a solution containing 3 ounces of **Pine Type Disinfectant** per gallon of water.

Pine Type Disinfectant will effectively deodorize bacterial odors, mold, mildew, and other odors in homes and public restrooms. When used as directed, **Pine Type Disinfectant** will deodorize hard surfaces, including tile, walls, floors, and furniture. It may be used to deodorize pet areas and garbage pits where odors are a problem. The product may be used in public restrooms, schools, hospitals, and public restrooms where odors are a problem.

See left panel for use directions.

WARNING

KEEP OUT OF REACH OF CHILDREN

Causes severe irritation. Do not get in eyes, on skin, or on clothing. Wash with water. Avoid contact with skin.

FIRST AID

In case of eye contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if irritation persists. If on skin, wash with plenty of water. If inhaled, get medical attention if irritation persists. If swallowed, get medical attention if irritation persists.
