

# MITCO CC-30 ALGICIDE

**FOR CONTROLLING GROWTH OF ALGAE IN INDUSTRIAL  
RECIRCULATING WATER COOLING SYSTEMS**

Active Ingredients: Sodium Pentachlorophenate ....90%      Inert Ingredients ....10%

**USDA Reg. NO. 8637-4**

**KEEP OUT OF REACH OF CHILDREN**

## CAUTION

CC-30 Algicide may cause skin irritation or damage to the eyes. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. In case of contact, flush immediately with plenty of water. For eyes, get medical attention. Avoid contamination of food. Do not breathe dust. Wash thoroughly after handling.

## DIRECTIONS FOR USE

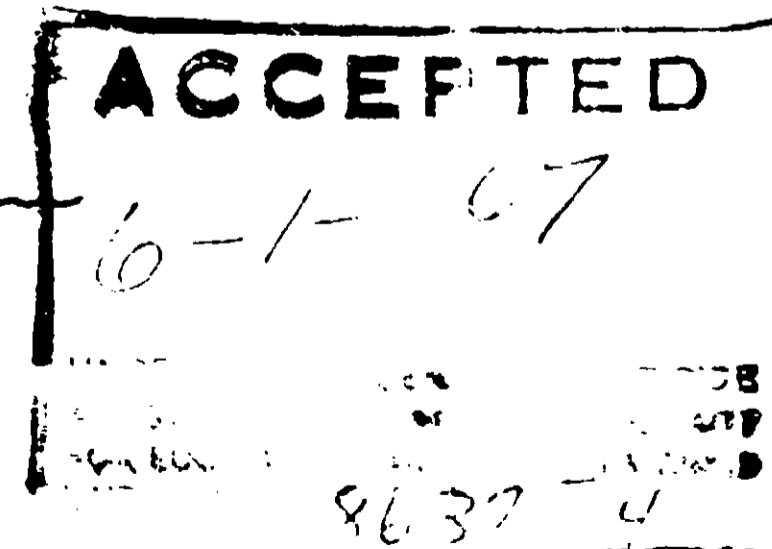

This product is intended to be fed intermittently into the system. Chemical may be poured into the sump of the cooling tower or evaporative condenser. Approximately 1/3 pound should be used per 1000 gallons of water in the system. Chemical additions should be made weekly during the season when algae is likely to develop. When treating system for the first time, add chemical in small increments to determine the extent of foaming. Your Mitco field service engineer can furnish detailed instructions.
