 <p style="text-align: center;">U.S. ENVIRONMENTAL PROTECTION AGENCY Office of Pesticide Programs Registration Division (H7505C) 401 "M" St., S.W. Washington, D.C. 20460</p> <p style="text-align: center;">NOTICE OF PESTICIDE: <u> </u> Registration <u> </u> Reregistration (under FIFRA, as amended)</p>	EPA Reg. Number: 8654-9	Date of Issuance: JUL 9 2003
	Term of Issuance: Conditional	
	Name of Pesticide Product: Solucide O ₂	
Name and Address of Registrant (include ZIP Code): Medical Chemical Corporation 19430 Van Ness Avenue Torrance, CA 90501		
<p>Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.</p> <p>On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.</p> <p>Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p style="text-align: center;">This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:</p> <ol style="list-style-type: none"> 1. Submit and/or cite all data required for registration/ reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4. 2. Make the following label changes: <ol style="list-style-type: none"> a. Revise the EPA Registration Number to read, "EPA Reg. No. "8654-9". 		
Signature of Approving Official: Marshall Swindell, PM 33 Regulatory Management Branch 1 Antimicrobial Division (7510C)	 Date: JUL 9 2003	

b. Submit a revised Basic Confidential Statement of Formula with the following changes:

- The certified limits are unacceptable. The upper and lower limits for water must be changed to 90.15 and 84.89, respectively. The upper and lower limits for hydrogen peroxide must be changed to 4.20 and 1.90, respectively.
- The total weight in box 17 must read 3830.767 kg.

3. The Product Chemistry Data has been reviewed and found to be acceptable with the exception of the following studies:

a. The Enforcement Analytical Methods are acceptable. However, there is no documentation to verify that the product is 4.00%; therefore, a five-batch is required to be submitted.

b. The Storage Stability Data in MRID #454668-01 has already been accepted by the Agency. However, the submitted data shows the stability of hydrogen peroxide. It does not show the storage stability of the actual end-use product. In addition, the storage stability of the actual product must be submitted for efficacy purposes.

c. The Viscosity of the product is not acceptable until the company puts units on the entry in the study.

4. On the GLP compliance statement, the Submitter and Study Sponsor have only signatures and no typed names. GLP requires the typed names to document the signatures.

5. Only a signature is found on the Statement of No Data Confidentiality Claims. There is no typed name to document the signature.

Submit two copies of final printed labeling for our record.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling

Recommended for the disinfection of hard non-porous surfaces such as: counter tops, tables, chairs, cages and other environmental surfaces in hospitals, laboratories and other institutions. Solucide is compatible with rubber, latex, aluminum and stainless steel when used according to instructions. Pre-clean all surfaces to be disinfected. This will insure maximum contact with the disinfection solution. **DO NOT DILUTE.** For effective disinfection, saturate non-critical devices with full strength Solucide at room temperature. Surfaces should be kept moist for 10 Minutes. Dry surfaces with a clean cloth. This procedure will destroy vegetative pathogens including Staphylococcus aureus (including methicillin resistant strains), Salmonella choleraesuis, Pseudomonas aeruginosa, vancomycin resistant Enterococcus faecalis and pathogenic fungi (such as Trichophyton mentagrophytes) on hard non-porous, inanimate surfaces. A ten minute contact time with this procedure will also destroy the following viruses on hard non-porous inanimate surfaces: Polio virus type 2, HIV-1, Rotavirus Wa, Influenza type A, Respiratory Syncytial Virus and Herpes simplex virus type 1 and 2. Tuberculocidal at room temperature (22° C) and a 10 minute contact time (tested against M. bovis using the quantitative test method).

Special instructions for cleaning and decontaminating against HIV on surfaces/objects soiled with blood/body fluids. Observe universal precautions as defined by the CDC for surfaces, medical instruments or equipment soiled with blood/body fluids. A 10 minute immersion is effective against HIV virus on pre-cleaned environmental surfaces. **Personal protection:** Disposable nitrile gloves, eye protection, and face masks should be worn when cleaning and disinfecting soiled equipment. **Cleaning procedure:** Blood and other bodily fluids must be thoroughly cleaned from surfaces and objects before application of the disinfectant. **Disposal of infectious Material:** Blood and other bodily fluids should be disposed of according to approved hospital procedures.

STORAGE AND DISPOSAL: Store at room temperature. **CONTAINER DISPOSAL:** Thoroughly rinse container and discard in trash. **PESTICIDE DISPOSAL:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

PRECAUTIONARY STATEMENTS: Hazardous to humans and domestic animals. This product is a sensitizer. Prolonged or repeated skin contact may cause allergic reaction in sensitive individuals. **DANGER.** Corrosive. Causes irreversible eye damage. Harmful if absorbed through skin. Do not get into eyes or on clothing. Wear goggles or face shield. Wash hands before eating, drinking, chewing gum, using the tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

FIRST AID: If swallowed, call a physician or poison control center immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Have a person sip a glass of water if able to swallow. Do not give anything by mouth to an unconscious person. **If in eye,** hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes and continue rinsing eye. Call a poison control center or doctor for treatment advice. **If inhaled,** move person to fresh air. If person is not breathing call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. **If on skin** or clothing, take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. **Note to physician:** Probable mucosal damage may contraindicate the use of gastric lavage.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

See bottom of bottle for Lot No. and expiration date.

Under the Federal Insecticide,
Fungicide, and Rodenticide Act as
amended, for the pesticide,
registered under EPA Reg. No.
