

AUG 19 1992

Mr. Daniel Paradiso, Jr.
The Andersons
d/b/a Parker Fertilizer Company
201 4th Street
Sylacauga, Alabama 35150

Subject: Revised Labeling
Greenup Ant, Roach and Insect Powder
EPA Registration Number 8660-136
Your Application Dated July 24, 1992

Dear Mr. Paradiso:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable provided that you make the labeling change given below before you release the product for shipment bearing the amended labeling:

In the Storage and Disposal directions on page 4, delete the heading, "FOR HOMEOWNER USE ONLY," and delete the heading, "FOR PROFESSIONAL/COMMERCIAL USE ONLY" and the entire section that follows this heading.

Submit five (5) copies of your final printed labeling before you release the product for shipment.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

DHE

Dennis H. Edwards, Jr.
Product Manager (19)
Insecticide-Rodenticide Branch

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed, inhaled, or absorbed through the skin. Do not breathe dust. Do not allow to contact with skin, eyes, or clothing. Wash hands and exposed skin before eating, drinking or smoking and after handling. Wash all contaminated clothing thoroughly before reuse. Do not apply to humans, animals, clothing or bedding. Do not use in food areas of food handling establishments, restaurant, or other areas where food is commercially prepared or processed. Do not contaminate feed or food products or food preparation surfaces, dishes, kitchen utensils and food containers.

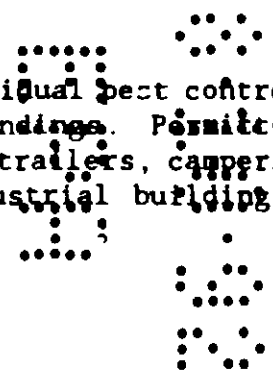

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label. This product is highly toxic to bees exposed to direct treatment or residues on crops. Protective information may be obtained from your Cooperative Agricultural Extension Service.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Recommended for use in non-food areas. This product is for residual pest control in and on buildings and structures, and their immediate surroundings. Permitted areas of use include, but are not limited to, houses, garages, trailers, campers, storage sheds, apartment buildings, stores, warehouses, industrial buildings, schools, nursing homes, hospitals, restaurants and hotels.

476

INDOOR USE

This product is intended for application with a shaker or puffer container to hiding and runway areas and those places where pests are found. The amount to be applied will vary with the site, but should usually be in the range of 1/3 to 2/3 oz. of dust per sq. yd.

COCKROACHES, ANTS, CRICKETS, SILVERFISH AND FIREBRATS: Thoroughly dust all areas where these pests crawl and hide, especially cracks and crevices around sinks, stoves, refrigerators and cabinets, behind baseboards, around doors and windows and in attics, basements and crawl spaces. For Ants, apply to Ant trails and around doors and windows where they may enter premises.

BROWN DOG TICKS AND FLEAS IN BUILDINGS: Dust infested areas such as pet beds and resting quarters, nearby cracks and crevices, under the edges of rugs and floor coverings, between and under cushions of upholstered furniture and other places where these pests may hide. Old bedding of pets should be removed after treatment of pet area and replaced with clean fresh bedding. Additionally, ensure that pets are treated with an EPA approved product registered for pet use. DO NOT TREAT ANIMALS OR THEIR BEDDING WITH THIS PRODUCT.

SPIDERS: Dust along and behind baseboards, window and door frames, corners, pipes, storage localities, attics, basements, crawl spaces and other areas where spiders may hide.

WASPS: It is best to treat Wasp nests at night when insects are less active and have returned to the nest. Do not wear loose fitting clothing -- take necessary precautions to avoid stings. For best results, carefully dust near nest and check one or two days after treatment to ensure complete kill, and re-treat if necessary. If possible, remove and destroy nest to prevent hatching of new insects. For ground nests, carefully dust entrance and surrounding areas. Re-treat in one or two days if wasp activity is still present. Do not use this product to treat nests overhead.

SOWBUGS, PILLBUGS, GROUND BEETLES, EARWIGS, MILLIPEDES, CENTIPEDES AND SCORPIONS: Apply around doors, windows and other places where these pests may enter. Treat baseboards, storage areas, and cracks and crevices, especially in dark, musty areas where these pests may hide.

OUTDOOR USE

PERIMETER TREATMENT: Use this product as a residual treatment for control of Ants, Brown Dog Ticks, Centipedes, Cockroaches, Crickets, Earwigs, Firebrats, Fleas, Ground Beetles, Millipedes, Pillbugs, Scorpions, Silverfish, Sowbugs, Spiders and Wasps. Make a residual treatment around windows and doors, porches, screens, eaves, patios, garages, under stairways and in crawl spaces and other areas where pests hide.

To help prevent invasion of buildings and structures by the above pests, treat a band of soil and vegetation 6 to 10 feet wide around and adjacent to the building or structure. Also treat the building foundation and crawl spaces where pests are active and may find entrance. Apply thoroughly and uniformly to the band area. Pay particular attention to Ant hills and Wasp nests in the band area. Wasp nests in trees and shrubs may be treated as noted above.

IMPORTED FIRE ANT MOUND TREATMENT

TO MAKE A LIQUID APPLICATION: Stir 7 oz. of this product into 2 gallons of water. Pour a small amount of material around the perimeter of the mound. Apply the remaining volume directly on the mound so as to penetrate insect galleries, using 2 gallons of mixture on mounds 8 inches or larger in diameter. Less mixture can be used on smaller mounds; however, thorough penetration of the insect galleries must be achieved. A second treatment may be necessary if complete control is not obtained.

Do not disturb the mound prior to application. If possible make applications after a recent rainfall. Applications may not be as effective during hot, dry periods.

TO MAKE A DUST APPLICATION: Use as is. For established Fire Ant mounds, apply between 1-1/2 to 3 level tbsps. of dust to cover 9 sq. ft. (3 ft. x 3 ft.) of the area surrounding the center. Apply the same amount directly to the center area where the Ants enter the ground. Apply gently so as not to disturb the insects. Use a spoon or suitable dusting equipment not kitchen utensils. Repeat as necessary for control. Treat new mounds as they appear. One ounce of this product equals 4-1/2 level tbsps.

STORAGE AND DISPOSAL

FOR HOMEOWNER USE ONLY:

Do not contaminate water, food or feed by storage and disposal. Keep container closed and away from food, feedstuffs and domestic water supplies. **PESTICIDE DISPOSAL:** Securely wrap original container in several layers of newspaper and discard in trash. **CONTAINER DISPOSAL:** Do not reuse bag. Discard bag in trash.

FOR PROFESSIONAL/COMMERCIAL USE ONLY:

Do not contaminate water, food or feed by storage and disposal. Keep container closed and away from food, feedstuffs and domestic water supplies. **PESTICIDE DISPOSAL:** Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate, is a violation of Federal Law and may contaminate groundwater. If these wastes cannot be disposed of by use according to label instruction, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. **CONTAINER DISPOSAL:** Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State or local authorities, by burning. If burned, stay out of smoke.

WARRANTY STATEMENT

MANUFACTURER warrants that this product (1) conforms to the ingredient statement on the label and (2) is reasonably fit for the purposes set forth in the Directions for Use. **EXCEPT AS SO WARRANTED, THE PRODUCT IS SOLD AS IS. MANUFACTURER MAKES NO OTHER WARRANTY EXPRESS OR IMPLIED.**

The manufacturer's directions regarding use of this product are based upon tests believed to be reliable. All statements made concerning this product apply only when used as directed, under normal use conditions. **FOLLOW DIRECTIONS CAREFULLY.** Timing and method of application, weather and crop conditions, mixture with other chemicals not specifically recommended and other influencing factors in the use of this product are beyond the control of the manufacturer. Buyer assumes all risks of use, storage or handling of this product.
