NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with the provisions of section 3(c)(7)(C) provided that you:

1. Add the phrase "EPA Registration No. 8660-157" to the label before you release the product for shipment.
2. Add: "In the State of New York do not use in Nassau County and Suffolk County.", directly following the violation statement.
3. Delete the statement "DO NOT apply this product to Colonial centgrass (*Acrostis tenuis*) varieties." from the other statements in this paragraph because it is unrelated to the statement.

If the Conditions of Sale and Warranty are not acceptable, return the product unopened within thirty days of purchase to the place of purchase.

**KEEP OUT OF REACH OF CHILDREN  
CAUTION**

**PRECAUTIONARY STATEMENTS**  
**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**  
CAUTION Causes eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling.  
FIRST AID: IF IN EYES - Immediately flush with plenty of water.  
**ENVIRONMENTAL HAZARDS**  
This product is toxic to fish. Drift and runoff may adversely affect aquatic organisms. Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

**STORAGE AND DISPOSAL**  
Do not contaminate water, foodstuffs, feed or seed by storage or disposal.  
**STORAGE** - Store this product only in its original container only. In case of spill, sweep up material and dispose of material according to label directions.  
**DISPOSAL** - Wastes resulting from the use of this product that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticide disposal or in accordance with applicable Federal, State or Local procedures. Do not reuse emptied container. Completely empty bag into application equipment. Dispose of empty bag(s) in a sanitary landfill, or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

**DIRECTIONS FOR USE**  
It is a violation of Federal law to use this product in any manner inconsistent with its labeling.

**GENERAL INFORMATION**  
This product is a selective herbicide that provides preemergence control of crabgrass and other susceptible annual grasses and broadleaf weeds in established lawns and ornamental turf. This product will not harm nearby established ornamentals when used according to label directions.

**PRECAUTIONS**  
Use of this product on golf greens is not recommended. DO NOT apply this product to Colonial bentgrass. For best results, cultural practices that disturb the soil, such as core, spike, hydro-aerification, or verticutting, and top dressing should be completed before application of this product. This product should not be applied until grasses have recovered from stresses related to these or other mechanical operations. Irrigation or rainfall within 7 days after application will improve the performance of this product.

**Reseeding or Sprigging:** Reseeding, overseeding, or sprigging of treated areas within 4 months after application of this product may inhibit the establishment of desirable turfgrass. When reseeding or overseeding, proper cultural practices such as soil cultivation, irrigation and fertilization should be followed. For best results, use mechanical or power seeding equipment (sift seeders) designed to give good seed-to-soil contact. This product may be used on seeded, sodded, or sprigged turfgrass that are well-established. Allow the turf to develop a good root system and uniform stand before application.

Use of this product on turfgrass not well-established, weakened by lack of moisture, chemical injury, insects, disease, or temperature extremes that cause stress will increase the potential for injury. Allow turfgrass weakened by these stresses to recover before application of this product. DO NOT apply to flowers, vegetables, shrubs or trees. DO NOT use clippings from treated turf for mulching around vegetables or fruit trees. DO NOT allow domestic animals to feed or forage on the treated turf.

This product can be applied only once per year at a maximum use rate of 185 pounds per acre (one-half pound active ingredient per acre). DO NOT make repeat or split applications of this product during a single growing season.

**TURFGRASS**  
When applied as directed under the conditions described, the following established turfgrasses are tolerant to this product:

- Cool-Season Grasses**
- Bentgrass, creeping\* *Agrostis stolonifera*
  - Bluegrass, Kentucky *Poa pratensis*
  - Fescue, fine\*\* *Festuca rubra*
  - Fescue, tall *Festuca arundinacea*
  - Rye grass, perennial *Lolium perenne*

- Warm-Season Grasses**
- Bahiagrass *Paspalum notatum*
  - Bermudagrass *Cynodon dactylon*
  - Buffalograss *Buchloe dactyloides*
  - Carpentergrass *Axonopus affinis*
  - Centipedegrass *Eremochloa ophiuroides*
  - Kikuyugrass *Pennisetum clandestinum*
  - St. Augustinegrass *Stenotaphrum secundatum*
  - Zoysiagrass *Zoysia japonica*

\* DO NOT apply this product to Colonial bentgrass. Use of this product on certain varieties of creeping bentgrass, such as "Carmen", "Cohansey", or "Seaside" will result in undesirable turf injury. Not all varieties of creeping bentgrass have been tested.  
\*\* The following fine fescue varieties have been found to be sensitive to this product: "Atlanta", "Banne", "Beauty", "Bilgart", "CF-2", "Enjny", "HF-93", "Highlight", "Ivalo", "Jamestown", "Kokoi", "Majenta", "Mary", "Pennlawn", "Tamara", "Tajjana", "Waldorf", and "Waldina".

**APPLICATION EQUIPMENT AND INSTRUCTIONS**  
Apply this product with drop or rotary-type spreaders designed to apply granular herbicides. Calibrate application equipment prior to usage, and apply this product uniformly over the turfgrass area. A more uniform application can be made by spreading half of the required amount over the area and then applying the remaining half at a right angle to the previous, (see spreader settings for half rate). Avoid the use of spreaders that would apply this product in narrow rows or concentrated bands. Avoid streaking, skips, or overlaps during application. Check equipment frequently to ensure equipment is functioning properly and applying uniform distribution of granules.

**APPLICATION DIRECTIONS**  
This product provides preemergence control of listed annual grasses and broadleaf weeds when applied prior to their germination in established turfgrass.  
**Control of Annual Grasses and/or Annual Broadleaf Weeds**  
This product should be applied prior to the germination of annual grasses and/or broadleaf weeds. Use the higher recommended rates where weed infestations are dense and/or applications are made early and longer residual control is desirable. For preemergence control and/or suppression of annual bluegrass and listed winter annual broadleaf weeds, apply this product prior to their germination and emergence. Use the higher recommended use rates where weed infestations are dense.

Refer to the following table for recommended use rates of this product for the preemergence control of annual grasses and/or broadleaf weeds.
