[Other ideas for Controlling Moss

- Apply Golden VIGORO® Moss Control plus Lawn Fertilizer anytime when moss is a problem
- De-thatch or Rake out dead moss. [and] Then apply grass seed to bare areas. Keep moist until seedlings are established.
- Aerate your lawn [to reduce] reducing soil compaction. Grass roots have difficulty penetrating compact soil, opening the door for moss growth.
- Proper Mowing Program. Never cut more than 1/3 of grass height at one time. A routine mowing program encourages strong turf growth.
- Increase Light Penetration and Air Circulation. Trim back low tree branches.
- Improve drainage. Poor drainage can suffocate roots and lead to disease. Soggy areas will almost always develop mass.
- Maintain Good Soil Fertility. Have the soil tested to determine proper lime and fertilizer needs.]

STOP. READ ENTIRE LABEL BEFORE USE.**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Golden VIGORO® Moss Control plus Lawn Fertilizer controls moss and greens grass fast. Apply at any time of the year when moss is a problem. If application is made in summer or during hot dry weather, soak lawn the day before application and water again promptly after application to maintain good growing conditions.

GENERAL USE DIRECTIONS

Determine size of area to be treated – measure length and width in feet, then multiply to determine coverage area in sq. ft.

Use the spreader setting chart to determine appropriate setting.

Treat as directed – thorough coverage is important. Water in as indicated on the label.

Keep children and pets off treated areas until this material is washed into turf and grass is dry.

HOW TO APPLY

1. Rake lawn lightly to remove loose moss, dead grass and leaves.
2. Mow lawn to normal height and remove clippings.
3. Apply [product] at rate of ½ lb. (0.22 kg) per 125 sq. ft. (11.61 sq. ft.) (Contents of bag will cover 5,000 sq. ft.) (465 meters). Covering the entire lawn area will give superior results to spot treatment.
4. Water immediately after application to remove product from grass blades and bring it into the root zone.

Annual applications are recommended as a prevention for new infestations of moss.

IMPORTANT

It is important to follow directions as indicated on this quality lawn care product as over application may cause injury to your lawn. Spreader settings are approximate. Differences may occur due to condition of spreader, speed at which applied, and roughness of area treated. Be sure to check spreader before beginning, adjusting if necessary. **NEVER APPLY BY HAND.**

Optional Spreader Tip

[To avoid gaps and streaks, first spread border of lawn and then fill in center with uniform, parallel passes. Walk at a steady pace so as to apply evenly throughout the lawn. (Graphic of pattern)]

IMPORTANT USE TIPS

Spreader rate varies with walking speed, condition and age of spreader. Calibrate by checking over measured area and adjust if necessary.

Close spreader openings when loading, turning or when stopped.

THIS PRODUCT WILL STAIN CEMENT, STONE AND PAINT. REMOVE ALL SPILLAGE PROMPTLY BY SWEEPING.

TO AVOID IRON STAINS, KEEP THIS PRODUCT OFF SIDEWALKS, PATIOS, DECKS, DRIVEWAYS AND CLOTHING. IF PRODUCT DOES COME INTO CONTACT WITH THESE SURFACES, SWEEP AWAY IMMEDIATELY. STAINING MAY BE IMPOSSIBLE TO PREVENT IF CONCRETE IS WET WHEN CONTACT OCCURS. THIS PRODUCT IS FOR LAWNS ONLY.

STORAGE AND DISPOSAL

Storage: Store product in original container in a cool, dry, locked place out of reach of children and pets. Do not contaminate other pesticides, fertilizers, seeds, food or feed. Return spillage to original container prior to disposal. **Disposal:** If empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
