Subject: Registration Review Label Mitigation for Boric Acid
Product Name: Vertagreen Boric Acid Insecticide Powder
EPA Registration Number: 8660-20203
Application Date: October 2, 2018
Decision Number: 551697

Dear Michael Sarli:

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the Registration Review of the above referenced product in connection with the Boric Acid Interim Decision, and has concluded that your submission is acceptable. The label referred to above, submitted in connection with registration under FIFRA, as amended, is acceptable.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

A copy of your label stamped "Accepted" is enclosed. Products shipped after 12 months from the date of this amendment must bear the new revised label. Your release for shipment of the product bearing the amended label constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6.

If you have any questions about this letter, please contact Darius Stanton by phone at 703-347-0433, or via email at Stanton.Darius@epa.gov.

Sincerely,

Other Ingredients	1.0%
TOTAL	100.0%

KEEP OUT OF REACH OF CHILDREN
CAUTION See back panel for additional precautionary statements.

NET WT. xx Oz. (xx gm)

HOW IT WORKS.

Vertagreen Boric Acid Insecticide Powder is a long-lasting, odorless powder effective in killing roaches and other crawling insects. The powder provides long-lasting protection from further infestations as long as it stays dry. Vertagreen Boric Acid Insecticide Powder sticks to the roaches it comes in contact with. These roaches then spread the powder to other areas where roaches multiply and hide. The end result is all roaches (seen and unseen) are killed. Allow 14 days for the control of roaches.

STOP. READ THE ENTIRE LABEL FIRST. OBSERVE ALL PRECAUTIONS AND FOLLOW DIRECTIONS CAREFULLY

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

WHERE TO USE {Any combination of listed sites consistent with directions for use}

This product may be used in Homes, Restaurants, Markets, Schools, Warehouses, Factories, Offices, Hotels, Motels, Hospitals, Nursing Homes, Garages, Grocery Stores, Apartment Buildings, New Construction, Industrial Plants, Theatres, Ships, Boats, Trains, Trucks, Yachts, Camps, Mobile Homes, Buses, Zoos, Kennels, Military Bases, Libraries, Utilities and Sewers.

DOMESTIC USE

Use Restrictions: Apply only in areas inaccessible to children and pets. Avoid contamination of feed and foodstuff. Do not use in edible product areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

1. Using easy applicator, create a barrier through which cockroaches and other insects must crawl.
2. Apply liberally under and behind refrigerator, stove, sink, dishwasher, washing machine, dryer and tubs in kitchen and utility rooms.
3. Apply in cracks and crevices, along baseboards, and corners of cabinets, cupboards and closets.
4. Apply a line from corner to corner in rear of kitchen cabinets or drill 1/2" holes at top of kick panels beneath cabinets in kitchen and bathrooms, dusting liberally.
5. Remove lower drawers in kitchens and bathroom cabinets, bedroom dressers and chest of drawers and liberally duct into drawer wells and under bookshelves.
6. Apply into openings and void areas around plumbing, drains, water pipes and electrical conduits.
7. Any powder visible after application may be brushed into cracks and crevices or removed. Reapply as necessary.
8. Use around window sills and door jams.

COMMERCIAL USE**CONSTRUCTION SITE USE** (Non-edible products areas only)

Application in New and Existing Construction to Control Cockroaches and Other Insects.

For treatments in industrial/commercial/structural buildings: Do not apply with pressurized application methods except for use with crack and crevice, spot, or void treatments

1. When treating large areas, such as voids, soffit and subcabinet voids, dust liberally.
2. Dust into pits of dumbwaiters, elevator shafts and trash chutes.
3. In storerooms. Dust under pallets and behind boxes.

STORAGE AND DISPOSAL

Storage: Store product in a cool, dry place inaccessible to children and pets.

Disposal: If empty: Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions.

PRECAUTIONARY STATEMENTS**Hazards to Humans and Domestic Animals**

CAUTION Harmful if swallowed, inhaled, or absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling. Avoid breathing dust.

PPE FOR COMMERCIAL APPLICATIONS

When using pressurized equipment to load and apply dust products to structural building components wear a minimum of a NIOSH-approved particulate filtering facepiece respirator with any N, R or P filter; OR a NIOSH-approved elastomeric particulate respirator with any N, R or P filter; OR a NIOSH-approved powered air purifying respirator with HE filters.

Respirator fit testing, medical qualification, and training

Using a program that conforms to OSHA's requirements (see 29 CFR Part 1910.134), employers must verify that any handler who uses a respirator is:

- Fit-tested and fit-checked,
- Trained, and
- Examined by a qualified medical practitioner to ensure physical ability to safely wear the style of respirator to be worn. A qualified medical practitioner is a physician or other licensed health care professional who will evaluate the ability of a worker to wear a respirator. The initial evaluation consists of a questionnaire that asks about medical conditions (such as a heart condition) that would be problematic for respirator use. If concerns are identified, then additional evaluations, such as a

physical exam, might be necessary. The initial evaluation must be done before respirator use begins. Handlers must be reexamined by a qualified medical practitioner if their health status or respirator style or use-conditions change.

- Upon request by local/state/federal/tribal enforcement personnel, employers must provide documentation demonstrating how they have complied with these requirements.

FIRST AID

If Swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by Poison Control Center or doctor. Do not give anything by mouth to an unconscious person. **If Inhaled.** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a Poison Control Center or doctor for further treatment advice. **If in Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a Poison Control Center or doctor for treatment advice.

Have this product label with you when calling a Poison Control Center or doctor, or going for treatment.

Notice: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.
