

FOR USE UNDER NO. 8664-2

Comments

PURPOSE

SCIENTECH "2-DO" is designed to in one labor saving operation CLEAN, DISINFECT and COUNTERACT ODORS in hospitals, clean rooms, schools, camps, locker rooms, motels, industrial plants, public transportation facilities and buildings, nursing homes, barber shops, restaurants and doctors offices or wherever disinfection is desired to reduce the hazard of cross contamination by environmental surfaces.

PHENOL COEFFICIENTS

Staph aureus 30 Salmonella typhosa 20

WARNING

Avoid getting concentrate in eyes, on skin or clothing. Harmful if swallowed. Avoid contamination of food.

FIRST AID

In case of contact with eyes or skin flush with plenty of water for at least 15 minutes. For the eyes call a physician. If swallowed do not induce vomiting. Drink large quantities of fluid and call a physician immediately. Remove and wash clothing before reuse.

SCIENTECH

INDUSTRIAL 2-DO INSTITUTIONAL

MULTI-ACTION CLEANER

DISINFECTANT - DEODORIZER - FUNGICIDE

ACTIVE INGREDIENTS:

n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18)	
dimethyl benzyl ammonium chlorides	1.6%
n-Alkyl (68% C12, 32% C14)	
dimethyl ethylbenzyl ammonium chlorides...	1.6%
Tetrasodium ethylene diamine tetraacetate	0.2%
Sodium carbonate.....	3.0%

INERT INGREDIENTS:	93.6%
	<u>100.0%</u>

A PRODUCT OF SCIENCE & TECHNOLOGY

MANUFACTURED BY

THE SCIENTECH COMPANY

COLLEGE POINT, N.Y. 11356

EPA REG. No. 8664-2

WARNING: KEEP OUT OF THE REACH OF CHILDREN SEE LEFT PANEL FOR ADDITIONAL PRECAUTIONS.

DIRECTIONS FOR USE

For all normal cleaning operations, 2 oz. of "2-DO" to a gallon of water provides 500 ppm quaternary to use solution. This is enough for general disinfection, fungicidal activity against pathogenic fungi and deodorizing.

Apply with mop or cloth to walls, floors, equipment and other environmental surfaces such as: showcases, refrigerators, bathroom-fixtures, shower-stalls, table and counter tops, utensils, glasses, packaging and processing machinery etc. Allow a few minutes for cleaning action to penetrate soil and emulsify grease and oil. Remove entrapped soil with wet pick-up, mop or dry cloth.

If used to sanitize food equipment or other food contact items WITHOUT RINSING, use 0.8 oz/gal. of water to limit quaternary to 200 ppm.

If a pseudomicrobial product is required use 3 oz/gal. of water.

As an added precaution, on surfaces encrusted with grease, heavy soils or if infectious disease organisms are present, repeat operation to insure microbiological efficiency.

Rinse empty container thoroughly with water and discard it.
