Caution: Keep away from small children.

ONE U. S. GALLON NET

✓ **CHECK THESE ADVANTAGES OF  
PENTA-SAN**

- **ECONOMICAL** — One gallon will treat approximately 200 square feet of lumber
- **CLEAN** — Will not bleed or stain — does not discolor wood
- **PERMANENT** — Not affected by sun, rain, wind, snow or soil
- **EASY TO APPLY** — Can be dipped, brushed or sprayed
- **PROTECTS ANYWHERE** — Indoors or out, above ground or below
- **PROVEN** — Years of industrial use — recommended by architects and industrial engineers

THIS IS A CHEMICAL PRODUCT MANUFACTURED TO MEET HIGH STANDARDS OF LABORATORY CONTROL. BECAUSE THE FACTS WHICH GOVERN THE PRODUCT ARE BEYOND OUR CONTROL AND SUBJECT TO CHANGE CAUSED BY AGE, CLIMATE AND OTHER CONDITIONS THE PURCHASER SHOULD MAKE ACTUAL TESTS OF ITS SERVICEABILITY AND SUITABILITY TO HIS NEEDS SINCE WE ARE UNABLE TO MAKE ANY WARRANTY OR GUARANTEE, EXPRESS OR IMPLIED, NOR WILL WE BE BOUND BY ANY ORAL PROMISE OR REPRESENTATION RELATIVE HERETO. IF THE PURCHASER DOES NOT ACCEPT THIS PRODUCT SUBJECT TO THESE TERMS IT SHOULD BE RETURNED TO US UNOPENED AT OUR EXPENSE.

**RECOMMENDED FOR USE AS A BASE FOR  
SHINGLE STAIN. ADD OIL COLOR DESIRED**

**IF YOU ARE PLANNING**

- TO REMODEL YOUR HOME
- TO BUILD A NEW HOME
- TO CONSTRUCT NEW BUILDINGS

**AVAILABLE AT ALL LEADING HARDWARE STORES,  
PAINT STORES AND LUMBER YARDS**

**WOOD PRESERVATIVE**

**PREVENTS**

Warping Swelling Shrink-  
ing and End Checking  
caused by changes in mois-  
ture content of lumber and  
plywood. Prevents doors  
and windows from sticking.

**TERMITES**

Pentasan should be applied  
prior to use in construction.  
Not effective for protecting  
wood against termites in  
existing structures. Termites  
will not attack wood treated  
with Pentasan. We recom-  
mend two coats on all wood  
which will come into contact  
with the ground.

**RECOMMENDED FOR USE AS A BASE FOR  
SHINGLE STAIN. ADD OIL COLOR DESIRED.**

**DIRECTIONS FOR USE**

This is a **READY TO USE SOLUTION**. Do not dilute. Addition of any thinner will impair its strength. Apply by brushing, spraying or dipping, direct to raw wood. Wood must be dry as moisture prevents penetration. For best results or termite protection, we recommend that two coats be applied to all wood which will come into contact with the ground. Apply liberally, allowing one hour between coats. Wait 24 hours before applying paint or other finish material. Fence posts should be dry and well seasoned and all bark removed before treatment. When conditions permit, soak in tub over night.

**WARNING  
FLAMMABLE MIXTURE**

Use in ventilated place. Do not smoke or use near open flame. To avoid skin irritation, wash hands and face with mild soap. Avoid inhalation. Harmful if swallowed or absorbed through skin. Causes skin irritation. In case of accidental internal absorption, use emetic, call physician immediately.
