#### FOR CLEANING

Lightly soiled areas - surfaces to be cleaned should be mopped or brushed with a solution containing 1 ounce of **SANI-CLEAN** per gallon of water. Rinse cleaned area with fresh water.

Heavily soiled areas - mop or brush soiled surface with a solution containing 2-3 ounces of SANI-CLEAN per gallon of water. Rinse cleaned surface with fresh water.

### **GENERAL PURPOSE DISINFECTION**

To disinfect walls, floors and other hard surfaces in homes, schools, restaurants, rest rooms and other public areas, mop or brush surface to be treated with a solution containing 1½ ounces of SANI-CLEAN per gallon of water. Surfaces that are heavily soiled should be cleaned with 2 ounces of SANI-CLEAN per gallon of water and then disinfected. Those surfaces which may later come in contact with food must be rinsed with clear water of drinking quality.

To disinfect locker rooms, shower stalls, walkways around pools and other areas against pathogenic fungi, mop area with a solution containing 2 ounces in 3 gallons of water. This solution will destroy Trichophyton interdigitale, a causative agent of athlete's foot.

#### **HOSPITAL DISINFECTION**

To disinfect walls, floors, furniture and other hard surfaces in hospitals and nursing homes, mop or brush surface to be treated with a solution containing 2½ ounces of **SANI-CLEAN** per gallon of water. Those surfaces that are heavily soiled with blood, fecal material or exudates should be thoroughly scrubbed with a solution containing 2 ounces per gallon of water and then rinsed with a fresh solution containing 2 ounces per gallon of water before disinfection.

#### **SANITIZATION**

To sanitize walls, floors and equipment in food processing plants, first clean throughly with a solution containing 1 ounce of SANI-CLEAN per gallon of water. If surface is heavily soiled, use SANI-CLEAN at a rate of 2-3 ounces per gallon to insure thorough cleaning. Sanitize cleaned surface with a rinse solution containing 12 ounce of SANI-CLEAN per gallon of water. No rinse required after sanitization.

#### **DEODORIZATION**

To deodorize surfaces during cleaning, mop or brush surfaces with a solution containing 2 ounces of SANI-CLEAN per gallon of water.

SANI-CLEAN is an effective anti-bacterial cleaner designed for use in household, industrial and institutional cleaning. When used as directed, SANI-CLEAN will disinfect hard surfaces, such as floors, walls, counter tops and furniture. It may be relied upon to deodorize bathroom areas, garbage pails, food storage areas, kennel areas and other areas where obnoxious odors may develop. This product may be used as a general purpose antibacterial antifungal detergent in homes, schools, restaurants, hospitals, nursing homes, public rooms, food processing plants and in other places where efficient cleaning and antimicrobial action is desired. See left panel for use directions.

## **DANGER**

**KEEP OUT OF REACH OF CHILDREN.** Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin, or on clothing. Protect eyes and skin when handling. Harmful or fatal if swallowed. Avoid contamination of food.

#### FIRST AID

4127

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes call a physician. Remove and wash contaminated clothing before reuse.

If swallowed. Drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

#### NOTE TO PHYSICIAN

Probably mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

EPA REG. NO 25024 - 1

SANI-SOFT is based on a highly-active mixture of three Twin Chain quaternary ammonium compounds together with an effective fabric softener.

Soiled and contaminated fabrics such as diapers, hospital and institutional linen and athletic equipment is a major housekeeping problem not only in hospitals but in institutions, hotels, restaurants and schools. Used as directed SANI-SOFT imparts an effective residual bacteriostatic treatment together with softening to laundered items such as diapers, hospital and institutional linens and athletic apparel. This finish will effectively protect the fabric against rapid bacterial growth caused by moisture and wet contamination.

SANI-SOFT is designed for commercial and institutional laundry use by addition to the final rinse. Laundered fabric may also be treated and softened by soaking in a solution of SANI-SOFT. For recommended solution concentration, see Use Directions.

Fabrics treated with recommended use-concentrations of SANI-SOFT were found to be non-irritating to human skin.

SANI-SOFT Bacteriostatic Laundry Softener Concentrate is economical to use because it is concentrated. It should be handled with care.

RINSE EMPTY CONTAINER WITH WATER BEFORE DISCARDING.
