ALGAECIDE BRIQUETTES

Kills Algae

Controls Slime Formation

Noncorrosive to Metal

For use in recirculating water cooling towers and evaporative condensers where water is not used for drinking or bathing purposes.

Slime in water cooling tower is likely to be composed of algae, bacteria and fungi.

DIRECTIONS

Use 6 to 12 briquettes per 1000 gallons of water in a clean system, repeated as needed to obtain control, followed by 3 to 6 briquettes per 1000 gallons of water weekly, or as needed. Briquettes are to be placed in sump.
