INSECTAPE
PROFESSIONAL STRENGTH

Kills Roaches and Waterbugs, Ants and Spiders Continuously with One Quick Application

INSECTAPE PROFESSIONAL STRENGTH insecticidal strips are adhesive-backed multi-layered strips containing BAYGON insecticide. These strips continuously kill cockroaches and waterbugs, and ants and spiders that walk across the strip's surface. Only one easy application is needed to work around-the-clock to bring continuous relief. Actual length of effectiveness will vary in different situations.

Depending upon the degree of infestation, it will take from a few days to a few weeks before insect control is achieved. Use INSECTAPE PROFESSIONAL STRENGTH alone or as a supplemental residual treatment with recommended insecticide sprays, dusts or baits. Good sanitation practices should be followed in either case.

HOW STRIPS WORK

The patented HERCON controlled release system provides this long term insect protection. The insecticide is sealed in a reservoir within the multi-layered strip. As the surface of the strip is disturbed by insect or other activity, replacement insecticide automatically moves up from the reservoir to maintain surface potency at all times.

PRECAUTIONARY STATEMENTS

Do not open protective pouch until ready to use. Harmful if chewed or swallowed. Avoid contact with eyes, clothing and food. Wash hands with soap and water after handling. Do not use in edible product areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Note to Physician: Atropine is antidote.

STORAGE AND DISPOSAL

STORAGE: Store in a cool place until used.
DISPOSAL: Do not reuse empty pouch. Wrap used strips and put in trash collection.

DIRECTIONS FOR USE
General Classification

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.
