HERCON* INSECTAPE* PROFESSIONAL STRENGTH

Insecticidal Strips

KILLS ROACHES, WATERBUGS, ANTS AND SPIDERS

WASPS, HORNETS, BEES AND YELLOWJACKETS

CONTINUOUSLY WITH ONE QUICK APPLICATION

HERCON INSECTAPE PROFESSIONAL STRENGTH insecticidal strips are adhesive-backed, multilayered strips containing BAYGON* insecticide. These strips continuously kill cockroaches, waterbugs, ants, spiders, wasp, hornets, bees and yellowjackets that contact the strip's surface. Only one easy application is needed to work around-the-clock to bring continuous relief. Actual length of effectiveness will vary in different situations.

Depending on the degree of infestation, it will take from a few days to a few weeks before insect control is achieved. Use HERCON INSECTAPE PROFESSIONAL STRENGTH strips alone or as a supplemental residual treatment with recommended insecticide sprays, dusts or baits. Good sanitation practices should be followed in either case.

HOW STRIPS WORK: A patented, controlled release system provides this long term insect protection. The insecticide is sealed in a reservoir within the multilayered strip. As the surface of the strip is disturbed by insect or other activity, replacement insecticide automatically moves up from the reservoir to maintain surface potency at all times.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Do not open protective pouch until ready to use. Harmful if chewed or swallowed. Avoid contact with eyes, clothing and food. Wash hands with soap and water after handling. Do not use in edible product areas of food processing plants, restaurants, or other areas where food is commercially prepared or processed. Note to Physician: Atropine is antidotal.

BACK AND SIDE PANELS (p2)**DIRECTIONS FOR USE**

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

FOR ROACHES, WATERBUGS, ANTS AND SPIDERS: Wipe or clean surfaces before applying strips. Remove paper backing and place strips wherever roaches, waterbugs, ants and spiders crawl or nest.

FOR WASPS, HORNETS, BEES AND YELLOWJACKETS INSIDE CLOSURES: Use strips to kill and prevent wasps, hornets, bees and yellowjackets from nesting inside telecommunications or electrical closures. If necessary, flush out insects with EPA-approved product before strip placement. Wipe or clean surfaces, then remove paper backing and apply strips inside such equipment as aerial terminals, pedestals and cable closures, electric meter, traffic controller or junction boxes, and other outdoor telecommunications or electrical apparatus.

Do not place strips in exposed locations where direct contact with children, pets, food or clothing is likely to occur. Replace strips when effectiveness is diminished to effect and maintain control.

STORAGE AND DISPOSAL

STORAGE: Store in sealed pouches in a cool, dry place until used.

PESTICIDE DISPOSAL: Securely wrap used strips and discard in trash.

CONTAINER DISPOSAL: Do not reuse empty pouch. Discard pouch in trash.

BAYGON* is a registered TM of the Parent Company of Farbenfabriken Bayer GmbH, Leverkusen.

HERCON* and INSECTAPE* are registered TMs of Health-Chem Corporation, New York, NY.

This product is covered under one or more of the following U.S. Patents: 3,705,938; 3,857,934; 3,864,468; and corresponding foreign patents.
