# HERCON<sup>®</sup> DISRUPT<sup>™</sup> PINK BOLLWORM

## MATING DISRUPTANT AND POPULATION SUPPRESSANT

HERCON DISRUPT PINK BOLLWORM is a controlled release pheromone (gossypol) dispenser formulation designed to lower incidence of mating of adult pink bollworm moths, *Pectinophora gossypiella*, by disrupting normal male orientation to females in the field. This results in mating with sterility, reducing pink bollworm damage in cotton due to a suppressed female (worm) population. Use of DISRUPT PINK BOLLWORM may reduce the risk of aflatoxin contamination and delay or decrease the use of conventional insecticides which may be harmful to beneficial parasites and predators and pollinators.

### PRECAUTIONARY STATEMENTS

#### Hazards to Humans and Domestic Animals

Keep out of reach of children. Do not inhale dust. Do not eat, drink, or use tobacco products while handling. Wash hands with soap and water after handling.

#### Hazards to the Environment

Keep out of rivers, streams, and ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

### STORAGE AND DISPOSAL

**Storage:** Store in sealed containers. Do not use if seal is broken. Keep out of reach of children. Do not use if seal is broken.

#### Pesticide

**Disposal:** Pesticide spray material should be disposed of according to the label. Do not reuse containers. Do not burn. State or local provisions for the Resource Conservation and Recovery Act.

#### Container

**Disposal:** Dispose of empty container according to approved Federal, State or local procedures under the Resource Conservation and Recovery Act.
