HERCON[®] FLORATAPE

JAPANESE BEETLE FOOD LURE DISPENSER

HERCON FLORATAPE is a floral food bait that lures Japanese Beetles away from valuable ornamentals, flowers, shrubs and other Japanese beetle traps. The addition of geraniol to floral lures makes them attractive to the beetle up to twice as effective in trapping beetles as lures without geraniol.

Because of Hercon's unique controlled release dispensing system, each Floratape dispenser is designed to last for the entire trapping season.

PRECAUTIONARY STATEMENTS

Avoid contact with skin and eyes. Wash hands thoroughly with soap and water. If irritation occurs, seek medical attention.

STORAGE AND DISPOSAL

STORAGE Store in a cool, dry place. Do not use if you notice water, food or feed on storage or disposal.

DISPOSAL Do not reuse empty containers. Wash container and put in trash collection.

DIRECTIONS FOR USE

This is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not open protective pouch until ready to use. Attach Floratape dispenser to the Japanese beetle trap or Japanese beetle dispenser per trap. For improved beetle control, Floratape is recommended for use with the EPA registered Hercon Luretape with Japanese baits. Follow Japanese beetle trap label for application rate and other directions.

NOTICE: Buyer assumes all responsibility for safety and use of this product in accordance with label.
