

APR 30 1993

Ms. Sheryl L. Ferguson
Hercon Environmental Company
Aberdeen Road
Emigsville, Pennsylvania 17318

Dear Ms. Ferguson:

Subject: "Master" Labeling
Hercon Insectape High-Tech With Propoxur
EPA Registration No. 8730-49
Your Submission Dated March 11, 1993

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), sec. 3(c)(7)(A), is acceptable provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data.

2. Make the following labeling changes before you release the product for shipment bearing the amended labeling:

a. Since this product cannot be used indoors, the following restriction must be deleted from the Precautionary Statements:

"Do not use in edible product areas of food processing plants, restaurants or other areas where food is commercially prepared or processed."

This statement implies that the Hercon strips may be used indoors in nonfood areas.

b. In the Application Guide, under the heading "Usage Information," the following sentence must be deleted, for the same reason noted in "a" above:

"For Commercial, Industrial and Institutional Establishments and non-food handling areas."

2077

2

3. Submit five (5) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

DHE

Dennis H. Edwards, Jr.
Product Manager (19)
Insecticide-Rodenticide Branch
Registration Division (H7505C)

THIS BOX CONTAINS 360 INSECTICIDAL STRIPS, SIX PER POUCH, 60 POUCHES
OR 60 POUCHES, EACH WITH A 24 SQ. IN. PATCH.

HERCON

HIGH TECH INSECTAPE® INSECTICIDAL STRIP or INSECT PATCH

CONTAINS BAYGON®
Specially formulated and packaged for protection of
telecommunications, power and electronic equipment.

**KILLS ROACHES, WATERBUGS,
ANTS, SPIDERS, HORNETS,
WASPS, BEES, YELLOWJACKETS.**

KILLS CONTINUOUSLY.

**REPELS RED IMPORTED FIRE ANTS AND
ROACHES FROM UTILITY EQUIPMENT.**

**LONG LASTING. REDUCES NEED
FOR FREQUENT TREATMENT.**

**SPECIALLY DESIGNED FOR
USE IN THE SECURITY,
TELECOMMUNICATIONS,
POWER & UTILITY INDUSTRIES.**

**FOR USE IN BOAT GUARD
INSECT CONTROL SYSTEMS.**

ACTIVE INGREDIENT:	
2-(1-Methylethoxy) phenol methylcarbamate	10.0%
INERT INGREDIENTS	90.0%
TOTAL	100.0%

CAUTION:
Keep Out of Reach of Children.
Read directions and precautionary statements before use.

CONTENTS: 60 POUCHES, EACH WITH SIX 1" X 4" INSECTICIDAL STRIPS OR
ONE 6" X 4" INSECTICIDAL PATCH.
MINIMUM NET WEIGHT: 0.31 OUNCE (8.9 GM) / POUCH

HERCON HIGH TECH INSECTAPE[®] INSECTICIDAL STRIP or INSECT PATCH

**Kills roaches, waterbugs, ants,
spiders, wasps, hornets, bees and
yellowjackets after they walk across
the surface.**

**Repels red imported fire ants and
roaches from utility equipment.**

HERCON HIGH TECH INSECTAPE or INSECT PATCH is an adhesive-backed, multi-layered strip/patch containing BAYGON[®] Insecticide. They continuously kill cockroaches, waterbugs, ants, spiders, wasps, hornets, bees and yellowjackets that walk across the strip/patch's surface. Only one easy application is needed to work around-the-clock to bring continuous relief. Actual length of effectiveness will vary in different situations.

Depending upon the degree of infestation, it will take from a few days to a few weeks before insect control is achieved. Use HERCON HIGH TECH INSECTAPE or INSECT PATCH alone or as a supplemental residual treatment with recommended insecticide sprays, dusts or baits. Good sanitation practices should be followed in either case.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Do not open protective pouch until ready to use. Harmful if chewed or swallowed. Avoid contact with eyes, clothing and food. Wash hands with soap and water after handling. Do not use in edible product areas of food processing plants, restaurants, or other areas where food is commercially prepared or processed. Note to Physician: Atropine is antidotal.

STATEMENT OF PRACTICAL TREATMENT

IF ON SKIN: Wash thoroughly with soap and water.

IF IN EYES: Flush eyes with plenty of water.

IF SWALLOWED: Call a physician.

STORAGE AND DISPOSAL

STORAGE: Store in sealed pouch in a cool, dry place until used.

PESTICIDE DISPOSAL: Securely wrap used strips/patches and discard in trash.

CONTAINER DISPOSAL: Do not reuse empty pouch. Discard pouch in trash.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

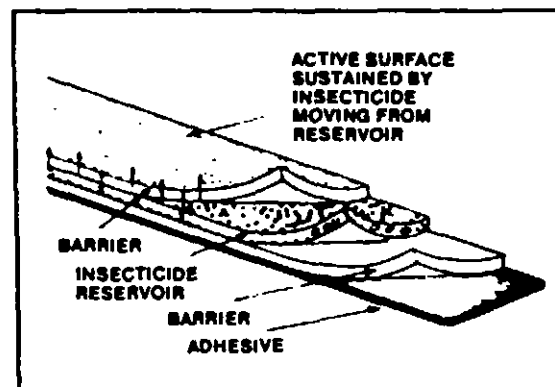

FOR ROACHES, WATERBUGS, ANTS AND SPIDERS: Wipe or clean surfaces before applying. Place HERCON HIGH TECH INSECTAPE or INSECT PATCH wherever roaches, waterbugs, ants and spiders crawl or nest. For use in Boat Guard Insect Control Systems.

FOR WASPS, HORNETS, BEES AND YELLOWJACKETS INSIDE CLOSURES: Use to kill and prevent wasps, hornets, bees and yellowjackets from nesting inside telecommunications or electrical closures. If necessary, flush out insects with EPA-registered product before placement. Wipe or clean surfaces before applying HERCON HIGH TECH INSECTAPE or INSECT PATCH inside such equipment as aerial terminals, pedestals and cable closures, electric meter, traffic controller or junction boxes, and other outdoor telecommunications or electrical apparatus.

IF USING INSECT PATCH IN ABOVE APPLICATIONS: Either cut patch to fit equipment or apply entire 6-in. by 4-in. patch according to the equipment size. Remove adhesive backing from patch by carefully peeling release liner away, exposing adhesive surface. Store unused sections of patch in zip lock bag provided. Refer to APPLICATION GUIDE or box label for Directions for Use for these unused sections.

Do not place HERCON HIGH TECH INSECTAPE or INSECT PATCH in exposed locations where direct contact with children, pets, food or clothing is likely to occur. For high tech applications, do not use more than 12 1-in. x 4-in. strips or two 6-in. x 4-in. patches per 3 cu. ft. of equipment. Refer to APPLICATION GUIDE for Directions for Use. Replace strip/patch when effectiveness is diminished to effect and maintain control.

HOW STRIP/PATCH WORKS:

A patented, controlled release system provides this long-term insect protection. The insecticide is sealed in a reservoir within the multi-layered strip/patch. As the surface is disturbed by the insect or other activity, replacement insecticide automatically moves up from the reservoir to maintain surface potency at all times.

WARRANTY:

Manufacturer warrants that the product is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to use of this product under abnormal conditions not reasonably foreseeable to manufacturer and user assumes the risk of any such use.

APPLICATION GUIDE**

INSECT CONTROL

**For application in electrical and
electronic equipment as well as
other areas listed in this guide.**

**FOR USE BY THE
FOLLOWING PERSONNEL:**

- Telecommunications
- Power and Utilities
- Railroad Systems
- Municipalities
- Traffic Control Systems
- Government and Military
- Pest Control Operators
- Electronics
- Transportation Systems

Apply in new and existing equipment to prevent future insect infestation. Non-corrosive, non-conductive, controlled release.

USAGE INFORMATION

Place HERCON HIGH TECH INSECTAPE or INSECT PATCH at entry points on inside surfaces or inner shell of equipment housing. Do not place HERCON HIGH TECH INSECTAPE or INSECT PATCH where it will interfere with moving parts of equipment. For Commercial, Industrial and Institutional Establishments and non-food handling areas. HERCON HIGH TECH INSECTAPE or INSECT PATCH should be applied in dark, warm, out-of-sight locations. The most commonly found areas are illustrated in this booklet together with other suggested locations.

NOTES ON APPLICATION:

1. Do not place HERCON HIGH TECH INSECTAPE or INSECT PATCH where it will interfere with moving parts of equipment.
2. Due to various equipment sizes, the amount of HERCON HIGH TECH INSECTAPE or INSECT PATCH needed may change.
3. Wipe clean and dry equipment surface before applying HERCON HIGH TECH INSECTAPE or INSECT PATCH. Always use HERCON HIGH TECH INSECTAPE or INSECT PATCH in enclosed areas at points of entry by insects.
4. Place HERCON HIGH TECH INSECTAPE or INSECT PATCH at entry points on inside surfaces or inner shell of equipment housing.
