U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (7505P)
Ariel Rios Building
1200 Pennsylvania Ave., NW
Washington, D.C. 20460

EPA Reg. Number:

Date of Issuance:

8730-49

MAR - 5 2009

Term of Issuance: **Unconditional**

Name of Pesticide Product:

Hercon® Insectape® High-Tech with Propoxur

NOTICE OF PESTICIDE:

Registration
 Reregistration
 (under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Aberdeen Road Company
 d/b/a Hercon Environmental
 PO Box 435
 Emigsville, PA 17318

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Decision, EPA has reregistered the product listed above. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Generic data requirements that have been identified in the RED as confirmatory data for the active ingredient contained in the subject product will continue to be tracked and assessed in the Agency's continual reassessment of pesticides.

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable.

You must submit one (1) copy of the final printed label before you release the product for shipment. Products shipped after 12 months from the date of this Notice or the next printing of the label whichever occurs first, must bear the new revised label. A stamped copy of the label is enclosed for your records. Should you have any questions, please contact Julie Chao at 703-308-8735 or chao.julie@epa.gov.

**INSECTA
PE[®]**

ACCEPTED
MAR - 5 2009

Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended, for the
pesticide registered under:

EPA. Reg. No: 8730-49

SIDE PANEL

For indoor and outdoor use in electrical and/or telecommunications equipment in the following areas:

- Telecommunications facilities
- Power and Utilities facilities
- Railroad Systems
- Municipalities
- Traffic Control Systems
- Government and Military facilities
- Security and Smoke Alarms
- Hotels and Motels
- Schools and Universities
- Food Service Industry
- Healthcare Institutions
- Biological Facilities
- Housing Authorities
- HVAC Systems

- NON-CORROSIVE
- NON-CONDUCTIVE
- FAST, EASY TO APPLY

Apply in new and existing equipment to kill wasp, bees, hornets, yellowjackets and foraging fire ants that contact the surface.

Non-corrosive, non-conductive, INSECTAPE® OR INSECT PATCH is an adhesive-backed multi-layered strip containing Propoxur insecticide that will kill foraging fire ants, wasps, hornets, bees, and yellowjackets that walk across its surface. Use INSECTAPE® or PATCH alone or as a supplemental treatment with recommended insecticide sprays, dusts, or baits.

SIDE PANEL

HOW THE STRIP WORKS:

Picture of strip

Hercon's patented system kills listed insects on contact. The insecticide is released from a reservoir within the multi-layered strip.

WARRANTY:

Manufacturer warrants that the product is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use, but to the extent consistent with applicable law, neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to use of this product under abnormal conditions not reasonably foreseeable to manufacturer and user assumes the risk of any such use.

HERCON® INSECTAPE®

HIGH-TECH with PROPOXUR INSECTICIDAL STRIPS OR INSECT PATCH PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

WARNING: May be fatal if swallowed. Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. **Personal Protective Equipment (PPE):** Applicators and other handlers must wear: long sleeved shirt and long pants; socks and shoes.

User Safety Recommendations: Wash hands before eating drinking, chewing gum, using tobacco, or using toilet. Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove protective clothing and equipment immediately after handling this product. Wash the outside of gloves before removing. Keep and wash protective clothing separately from other laundry.

Environmental Hazards: This product is toxic to wildlife and aquatic invertebrates. Birds and small mammals feeding on treated bait may be killed. Do not apply directly to water Do not contaminate water by cleaning of equipment or disposal of wastes.

FIRST AID: Carbamate insecticide

IF SWALLOWED

- Call the poison control center or doctor immediately for treatment advice.
- Have the person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

IF IN EYES

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses if present after the first 5 minutes then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

This Product contains an N-methyl carbamate that inhibits cholinesterase. Have the product container or label with you when calling a poison control center or doctor or going for treatment. For emergency information concerning this product, call the National Pesticide Information Center (NPIC) at 1-800-858-7378 seven days a week, 6:30 am to 4:30 pm Pacific Time (NPIC Web site: www.npic.orst.edu). After 4:30 pm call your poison control center at 1-800-222-1222.

NOTE TO PHYSICIAN: Atropine is antidotal

STORAGE AND DISPOSAL Do not contaminate water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Store in sealed pouch in a cool, dry place until used.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Do not reuse empty pouch. Discard pouch in trash.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its

labeling. Wear gloves when cutting strips. Do not apply in a way that will contact any person or pet, either directly or indirectly. Keep people and pets out of the area during application. Do not open protective pouch until ready to use.

Wipe or clean surfaces before applying. Place INSECTAPE or INSECT PATCH in electrical or telecommunication equipment where bees and foraging fire ants may crawl or nest.

FOR WASPS, BEES, HORNETS, and YELLOWJACKETS INSIDE EQUIPMENT ENCLOSURES: Use to kill wasps, hornets, bees and yellowjackets nesting inside telecommunications or electrical enclosures. Wipe or clean surfaces before applying INSECTAPE® or INSECT PATCH inside such equipment as aerial terminals, pedestals and cable closures, electric meter, traffic controller or junction boxes and other outdoor or indoor telecommunications or electrical apparatus. Refer to outside box side panel for other use sites. Remove adhesive backing from strip or back of patch pouch by carefully peeling release liner away exposing adhesive surface. Either cut patch to fit equipment or apply entire 6-in x 4-in piece according to equipment size. Store unused sections of patch in zip-lock bag provided. Refer to box label for Directions for Use for these unused sections. Do not place INSECTAPE® or INSECT PATCH in exposed locations where direct contact with children, pets, food or clothing is likely to occur. Do not use more than twelve 1-in x 4-in strips or two 6-in x 4-in patches per 3 cubic feet of equipment. Replace strip/patch as necessary.

HERCON® INSECTAPE®
HIGH TECH with Propoxur
INSECTICIDAL STRIP or INSECT PATCH

ACTIVE INGREDIENT:

2-(1-Methylethoxy)phenol
Methylcarbamate -Propoxur.....10.0%

INERT INGREDIENTS.....90.0%

CONTENTS: SIX 1" x 4" INSECTICIDAL STRIPS OR ONE 6" x 4" PATCH
MINIMUM NET WEIGHT 0.31 OZ (8.9 gm)/pouch

Kills foraging fire ants, wasps, hornets, bees, yellowjackets and spiders (excluding black widow and brown recluse) after they walk across the surface.

HERCON INSECTAPE strip or patch is an adhesive-backed, multi-layered strip/patch containing the insecticide Propoxur. It kills foraging fire ants, wasps, hornets, bees, yellowjackets and spiders (excluding black widow and brown recluse) that walk across the surface. Use HERCON INSECTAPE or INSECT PATCH alone or as a supplemental treatment with recommended insecticide sprays, dusts or baits.
