**HERCON FLEA & TICK 10%
Dog and Cat Collar**

FITS NECK SIZE TO XX INCHES*

HERCON FLEA & TICK 10% uses a patented controlled-release system to dispense an insecticide which kills fleas and ticks continuously for up to 6 months.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: May be harmful if swallowed or chewed. Avoid breathing dust. Avoid contact with eyes, skin or clothing. Do not allow children to handle this collar. Do not open protective pouch until ready to use. Wash thoroughly after handling. Some animals may be sensitive to this product. When collar is first worn, observe neck area and remove collar at first sign of adverse reactions such as skin irritation or any other symptoms. Collar is intended for use as an insecticide dispenser and is not to be taken internally by man or animals. Do not use on sick or convalescing animals. Do not use other pesticides on animals while collar is worn. Do not use on animals under 6 weeks of age.

STATEMENT OF PRACTICAL TREATMENT

If swallowed: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching finger to back of throat. If on skin: Wash with soap and waer. If in eyes: Flush eyes with plenty of water. Note to Physicians: This product contains a cholinesterase inhibitor... Atropine is antidotal if symptoms of cholinesterase inhibition are present.

*Specified neck size varies according to animal size:

The number (XX) appearing on label of pouched collars for cats and small dogs will be 14 inches; for medium dogs, 20 inches; and for large dogs, 27 inches

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Place collar around animal's neck. Collar should be worn loosely to prevent irritation. Attach collar so two or three fingers can be inserted easily between collar and animal's neck. Cut off any excess length and dispose properly. The collar starts killing fleas as soon as it is placed around the animal's neck. Fleas on the animal will be killed and new ones which may temporarily appear will also be killed while collar is worn. Replace collar after 6 months or when effectiveness diminishes.

Remove collar when bathing animals or when animals are likely to become wet.

When the collar is first placed on the animal, adult ticks will be killed in a few days and will fall off or may then be easily removed. Immature ticks which are small and difficult to see are also killed by the HERCON FLEA 7 TICK 10% collar. The insecticide released continuously by the collar will also kill ticks that may carry and transmit Rocky Mountain Spotted Fever and tularemia.

STORAGE AND DISPOSAL

STORAGE: Store in a cool dry place.

PRODUCT DISPOSAL: Securely wrap used collar in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse empty pouch. Wrap pouch in newspaper and discard in trash.
