NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with the provision of Section 3(c)(7)(A) of the Act, since you have agreed that you will submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires the registrant or similar products to submit such data.

1. Submit five copies of your final printed labeling before you release the product for shipment.
 2. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.
- A stamped copy of the label is enclosed for your records.

HERCON

Japanese Beetle

FOOD LURE

HERCON JAPANESE FOOD LURE is a floral food bait that draws Japanese beetles away from valuable ornamentals, flowers, and shrubs into a Japanese beetle trap. It also helps to protect roses, grapes, fruit trees and vegetables. When used in conjunction with the Japanese beetle sex lure, trapping efficiency increases two to five times then when using the food lure alone.

This product contains no killing agent to damage the environment and will not attract animals, birds or beneficial insects.

Because of Hercon's unique controlled release dispensing system, each food lure dispenser is designed to last for the entire trapping season.

ACTIVE INGREDIENTS:

Phenylethyl Propionate (PEP).....	9.84%
Geraniol.....	9.84%
Eugenol.....	23.00%

INERT INGREDIENTS..... 57.32%

TOTAL..... 100.00%

CONTENTS:

Each packet contains one 4.5 sq. in. food lure dispenser containing 0.96 grams PEP, 0.96 grams Geraniol and 2.24 grams Eugenol.

MINIMUM NET WEIGHT:
9.7 grams

KEEP OUT OF THE REACH OF CHILDREN

CAUTION

Read directions and precautionary statements before use

PRECAUTIONARY STATEMENTS:

Do not open protective pouch until ready to use. Avoid contact with skin and eyes. Wash hands thoroughly with soap and water after handling. If irritation occurs seek medical attention.

STORAGE AND DISPOSAL:

STORAGE: Store in a cool dry place until used. Do not contaminate water, food, or feed by storage or disposal.

DISPOSAL: Do not reuse empty container. Wrap bait before disposing in trash.

DIRECTION FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FOR USE IN JAPANESE BEETLE TRAPS: Attach the food lure dispenser to the Japanese beetle trap. Use one food lure dispenser per trap. For improved beetle catches, HERCON JAPANESE BEETLE FOOD LURE is recommended for use with the Japanese beetle sex attractant baits such as HERCON LURETAPE with JAPONILURE. Follow Japanese beetle trap label for application rate and other directions.

Replacement: Under ordinary weather conditions, the floral lure should be effective for about twelve weeks. They should be replaced after this period, or when their floral aroma is no longer readily noticeable.
