

TO CONTROL ALGAE

WARNING!

KEEP OUT OF REACH OF CHILDREN

See right panel for additional warnings

ALGAE-OUT is compatible with those chemicals normally used to treat pools and is effective at both acid and alkaline pH. ALGAE-OUT is used in pools treated with chlorine chemicals and generally reduces the amount of those chemicals normally required. DO NOT MIX ALGAE-OUT WITH CONCENTRATED DRY OR LIQUID CHLORINE PRODUCTS.

ALGAE-OUT is effective against green, blue-green and black algae.

For maximum results, pools containing a heavy growth of algae should be cleaned prior to using ALGAE-OUT.

For pools with visible algae, add 80 fluid ounces of ALGAE-OUT per 10,000 gallons.

For freshly cleaned and filled pools, add 50 fluid ounces of ALGAE-OUT per 10,000 gallons.

To maintain pools free of visible algae growth, add 10 fluid ounces of ALGAE-OUT per 10,000 gallons every five to seven days.
