

DIRECTIONS FOR USE

Initial Dose:

One quart Blue Cross Algaecide for 12,500 gallons of water.

Maintenance Dose:

8 ounces Blue Cross Algaecide for 12,500 gallons of water.

Initial dose is used when filling pool at beginning of swimming season. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or reappear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose.

Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

If make-up water is added at the rate of more than 10% per week of pool capacity, add 1 quart of Blue Cross Algaecide for each 10,000 gallons of fresh make-up water added per week.

When swimming season is over, add 1 gallon of Blue Cross Algaecide to 50,000 gallons of water in treating water left in pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

algaecide

COMBATS ALGAE in Swimming Pool water

ACTIVE INGREDIENTS:

n-alkyl (60% C ₁₄ , 30% C ₁₆ , 5% C ₁₂ , 5% C ₁₈)	
dimethyl benzyl ammonium chlorides	6.3%
n-dialkyl (60% C ₁₄ , 30% C ₁₆ , 5% C ₁₂ , 5% C ₁₈)	
methyl benzyl ammonium chlorides	1.2%
INERT INGREDIENTS:	92.5%

NET CONTENTS ONE GALLON

When Blue Cross Algaecide is used as directed, it will kill and prevent development of *Chlorella pyrenoidosa* (green), *Phormidium imbricatum* (black algae), *Phormidium retzii* (Square D algae), *Lyngbya variator* (blue-green) and other swimming pool algae.

Blue Cross Algaecide is compatible with most commonly used swimming pool chemicals, but should not be mixed with soap or other cleaners, or premixed with other water-treating chemicals. Blue Cross Algaecide works best when added by itself directly to pool water. Blue Cross Algaecide at use dilution is non-corrosive to inanimate surfaces.

WARNING

Keep Out of Reach of Children. Do not get in eyes, skin or on clothing. Causes severe eye irritation. Causes skin irritation. In case of contact, wash immediately with plenty of water. For eyes, get medical attention immediately. Harmful if swallowed. Avoid contamination of food.

FIRST AID

If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call a physician.
Rinse empty container thoroughly with water and discard.

Do not contaminate water by cleaning of equipment, or disposal of water. Apply Blue Cross Algaecide only as specified on the label.
