## DIRECTIONS

### WHEN TO USE

#### BASIC RULES

Use when weeds are present and actively growing in the lawn.

Delay application if rain appears likely in 12 hours and of course do not water during this period.

#### SPRING TREATMENT

Best time is when DANDELIONS just begin to bloom.

#### SUMMER TREATMENT

Use if weeds are a problem, but observe the basic rule concerning soil moisture or results may be disappointing. Also, do not apply when temperature is much above 85°F.

#### FALL TREATMENT

Use anytime weeds are a problem and soil moisture is good. Applications made in mid October are excellent for controlling spring dandelions, most of which are already in the seeding stage.

### HOW TO APPLY

1. Do not mow the lawn.
2. Be careful with the application.
3. Use a good list. Due to variations in the type of machine is applied. Use caution.

The correct method is to use the following:

MAKE  
TURF LI  
CYCLO  
SCOTT  
JACKSON  
SEARS  
GREEN

### CAUTION

#### KEEP OUT OF THE REACH OF CHILDREN

Harmful if inhaled or swallowed. If eaten induce vomiting and get medical help immediately. Avoid contact with skin, eyes, or clothing. Wash thoroughly after using. Avoid contamination of feed and foodstuffs. Do not contaminate water supplies, streams, and ponds. Use only on home lawns, golf courses, and other turf areas not used for pasture or hay.

Do not apply to ornamental trees, shrubs, flowers, or seeds. Do not apply to these plants. Do not apply to or dichondra. Do not apply to grass or clover. Do not apply to lawns until a Destroy by bu
