METZ CHLORINE SANITIZER is recommended for use on hard (non-porous) surfaces, on dishes, glasses or food processing equipment or utensils, including dairy and brewery equipment and utensils.

DIRECTIONS FOR USE

Prepare a sanitizing solution by dissolving 1 oz. or 2 oz. of METZ CHLORINE SANITIZER per 10 gal. of water. This gives a solution containing 100 ppm or 200 ppm available chlorine respectively. Clean and rinse item or surface prior to sanitizing. Then place dishes, glasses, equipment or utensils in the solution or spread it over the surface to be sanitized. Let stand 2 to 5 minutes and then wipe excess away. Rinse items and surfaces with potable water prior to use.

The same solution may be used in the feed tank in immersion or spray type machines providing 2 to 5 minutes of contact time for sanitizing dishes, glasses, food processing equipment and utensils. Clean and rinse items prior to sanitizing. After sanitizing step, rinse well with potable water and dry. The items are then ready for use.

The sanitizing solution should be used promptly after mixing. If the solution is allowed to stand or is reused and tests show the level of chlorine has not been maintained, additional METZ CHLORINE SANITIZER should be added, to maintain a minimum concentration of 100 ppm available chlorine.

WARNING

DIRECTIONS FOR STORAGE AND HANDLING

Store in a cool, dry well ventilated area. Moisture contamination may liberate irritating and hazardous chlorine containing gases. Oxidizing material: Do not mix with other chemicals. Contact with organic matter may cause fire. Decomposes at 350-475 degrees F with liberation of harmful gases. In case of decomposition, if possible isolate container in open air or well ventilated area. Flood with large volume of water if necessary.

Do not reuse empty container. Rinse empty container thoroughly with clean water before discarding.

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public water. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

K-K-70

E-Z CLOR PAC

FOR CONTINUOUS WATER PURIFICATION AND ALGAE CONTROL

- * Economical, long-lasting, and precipitate free
- * Easy to store, handle and use
- * For complete control of bacteria and algae.

DO NOT MIX CHEMICALS IN E-Z CLOR PAC WITH ANYTHING OTHER THAN LARGE QUANTITIES OF WATER

WARNING

KEEP OUT OF REACH OF CHILDREN
(See Warning Panel For Other Cautions)

Active Ingredients:	
Trichloro-s-Triazinetrione	79%
Inert Ingredients	21%
	<hr/> 100%

A MONSANTO COMPANY Formulation

CHLORINE CONCENTRATE

KING-KRATZ CORP., ST. LOUIS, MO.

Net Weight
3 lb. 12 oz.

WARNING

Contains very strong oxidizing agent. Keep from heat, flame, or moisture. Keep container covered in cool dry place. DO NOT MIX WITH ANYTHING OTHER THAN WATER IN LARGE QUANTITIES. Mixture with other materials, including algacides and other chlorine compounds may result in fire or explosion.

Do not transfer to other containers.

Keep away from children.

Avoid contact with skin, eyes, nose, mouth, or fumes. Avoid

METZ CHLORINE SANITIZER

ACTIVE INGREDIENT
Sodium dichloro-s-triazinetriene dihydrate (provides 14% available chlorine) 25%

INERT INGREDIENTS 75%

WARNING

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Causes eye irritation. May cause skin irritation.

FIRST AID

Do not get in eyes or on the skin. Do not breathe dust.
If swallowed: Feed gruel or cooked cereal followed by olive oil or cooking oil. Call physician.

In case of personal contact: Remove excess material and flush skin or eyes with fresh water for at least 15 minutes. For eyes get medical attention.

Rinse empty container thoroughly with water and discard it. See side panel for use directions.

EPA Reg. No. 8781-8 Net Contents 7.1 LB.

METZ CHLORINE SANITIZER is recommended for use on food contact surfaces, on dishes, glasses or food processing equipment or utensils, including dairy and brewery equipment and utensils.

DIRECTIONS FOR USE

Prepare a sanitizing solution by dissolving 1 oz. or 1 oz. of METZ CHLORINE SANITIZER per 10 gal. of water. This gives a solution containing 100 ppm or 200 ppm available chlorine respectively. Clean and rinse item or surface prior to sanitizing. Then place dishes, glasses, equipment or utensils in the solution or spread it over the surface to be sanitized. Let stand 2 to 5 minutes and then wipe excess away. Rinse item and surface with potable water prior to use.

The same solution may be used in the feed tank in immersion of spray type machines providing 2 to 5 minutes of contact time for sanitizing dishes, glasses, food processing equipment and utensils. Clean and rinse items prior to sanitizing. After sanitizing step, rinse well with potable water and dry. The items are then ready for use.

The sanitizing solution should be used promptly after mixing. If the solution is allowed to stand or is stored and tests show the level of chlorine has not been maintained, additional METZ CHLORINE SANITIZER should be added to maintain a minimum concentration of 100 ppm available chlorine.

WARNING

DIRECTIONS FOR STORAGE AND HANDLING

Store in a cool, dry, well-ventilated area. Moisture or humidity may be detrimental to the product. Do not mix with other chemicals. Do not mix with strong acids. Do not mix with organic matter. Do not use for fumigation purposes or in closed areas. Do not use in areas where the product may decompose or react with other materials. In case of decomposition, if possible, isolate contact area and ventilate area. Flood with large amounts of water if necessary.

Do not use in areas where the product may be in contact with water before use.

This product is toxic to fish. Do not use in areas where the product may be in contact with water. Do not use in areas where the product may be in contact with water. Do not use in areas where the product may be in contact with water.
