DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Dissolve 4 1/4 oz. of this product per 10 gallons of water to give a solution containing 100 ppm available chlorine. After cleaning to remove gross filth and heavy soil from surface, apply the sanitizing solution to the surface to be sanitized and let stand 2 to 5 minutes. The surface is then ready for use.

The same solution may be used in the feed tanks of immersion or spray type machines providing 2 to 5 minutes contact time for sanitizing dishes, glasses, food processing equipment and utensils. Clean and rinse items prior to sanitizing. They are then ready for use.

The sanitizing solution should be used promptly after mixing. If the solution is allowed to stand or is reused and tests show the level of chlorine has not been maintained, add more of this product to maintain a use solution of 100 ppm available chlorine.
