Subject: General Revisions to Labeling
Rid-a-Bug Home Insect Killer Brand AZ5
EPA Registration Number 8845-21
Your Application Dated August 11, 1993

Dear Ms. Tryson:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, is acceptable provided that you make the labeling changes indicated below before you release the product for shipment bearing the amended labeling:

1. Immediately below the sprayer instructions add the sentence "Do not reuse container."
2. Revise the Storage and Disposal section by adding the sentence "Do not reuse container" before the sentence "Discard container in trash."
3. Revise the Environmental Hazards section to read:

This pesticide is highly toxic to fish, birds, and other wildlife. Do not apply directly to water. Runoff may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment washwaters.

Submit five (5) copies of your final printed labeling before you release the product for shipment.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

DHE

Dennis H. Edwards, Jr.

TREATS 1800 SQ. FT. HOME**

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING

Sprayer Instructions:

How to prime and care for your sprayer:

1. After shaking product well, remove cap from container and replace with sprayer hose and cap assembly. Tighten securely.
2. Turn sprayer nozzle one half turn counter-clockwise. Hold sprayer below the level of container and prime by pumping trigger 10-15 times until product is dispensed. Adjust nozzle to fine spray or jet stream as needed.
3. To store, turn nozzle to "OFF" position and store with sprayer above level of liquid in container to prevent leakage.

KILLS PESTS INDOORS WHERE YOU KNOW THEY LIVE
Roaches, Ants, Crickets, Silverfish, Spiders, Centipedes, Earwigs, Waterbugs, Carpet Beetles: Spray heavily into cracks, crevices, openings around pipes. Spray until wet behind and beneath cabinets and appliances, under rugs, around carpet edges, baseboards, doors, window frames and other points of entry, storage areas and any localized area infested with these pests. For best results use at least monthly...more often if reinfestations occur.

KILLS PESTS OUTDOORS

Flies, Mosquitoes, Moths, Wasps and Hornets, Ants, Crickets, Earwigs, Centipedes, other insects outdoors: Spray outside surfaces of screens, doors, window frames or wherever insects may enter. Also treat surfaces around light fixtures on porches, in garages, and other places where insects are seen. For treatment of localized infestations where these are needed or brushing rough crop areas, spray thoroughly. Repeat every two weeks or as often as needed.

STORAGE AND DISPOSAL

Store in a cool place away from open flame. Discard container in

PRECAUTIONARY

Hazards to Humans and

CAUTION: Harmful if swallowed. Avoid breathing vapor and contact with skin and eyes. Wash hands after spraying. Do not allow children or pets on surfaces until surfaces are dry.

Statement of Practical Treatment

If Swallowed: Call a physician immediately. Drink 1 or 2 glasses of water. Induce vomiting by touching back of throat with finger if vomit fluid is clear. Never induce vomiting by mouth to an unconscious person. Remove contaminated clothing and wash with soap and water. **If In Eye:** Flush with water. Call a physician if irritation persists. Remove victim to fresh air. Apply first aid as indicated. **NOTE TO PHYSICIAN:** Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically with antidotal.

Environmental Hazards

This pesticide is highly toxic to fish. Do not apply directly to water.

NOTICE: Buyer assumes all responsibility for use not in accordance with directions.
