STOP. READ ENTIRE LABEL BEFORE USE.

DIRECTIONS FOR USE: It is a violation of Federal law to use this
 product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING

Sprayer Instructions:

How to prime and care for your sprayer:

1. After shaking product well, remove cap from container and replace with sprayer hose and cap assembly. Tighten securely.
2. Turn sprayer nozzle one half turn counter-clockwise. Hold sprayer below the level of container and prime by pumping trigger 10-15 times until product is dispensed. Adjust nozzle to fine spray or jet stream as needed.
3. To store, turn nozzle to "OFF" position and store with sprayer above level of liquid in container to prevent leakage.

NOTE: Do not reuse container.

INDOORS

Roaches, Ants, Crickets, Silverfish, Spiders, Centipedes, Earwigs, Waterbugs, Palmetto bugs, Carpet Beetles, Dry-wood Termites (pililla): Spray heavily into cracks, crevices and openings around pipes. Spray until wet behind and beneath cabinets and appliances, under rugs, around carpet edges, baseboards, doors and window frames and other points of entry, storage areas and any localized area infested with these pests. For best results use at least monthly...more often if reinfestations occur. NOTE: Dry-wood termites will be killed only if they come in contact with this product. Use of this product to control dry-wood termites should not be considered a substitute for treatment by a professional pest control operator.

Fleas & Brown Dog Ticks: Thoroughly spray infested area around baseboards, window and door frames, wall cracks, sleeping quarters of household pets and localized areas of floors and floor coverings. Spot test for color fastness. Applications should be repeated as infestations warrant and as reinfestations occur. Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment of pet area. Also treat pets with a EPA approved product registered for pet use. Do not treat pets with this product.

OUTDOORS

Flies, Mosquitoes, Moths, Wasps and Hornets, Ants, Crickets, Earwigs,

Centipedes, Tree Termites (comejénes) and other insects outdoors: Spray outside surfaces of screens, doors and window frames or wherever insects may enter. Also treat surfaces around light fixtures on porches, in garages and other places where insects are seen. For treatment of localized infestations where there are weeds or brushy non-crop areas, spry , thoroughly. Repeat every two weeks or as often as needed. For tree termites, treat specific areas where termite trails and nests are seen. Make holes in the nest and apply enough product to saturate the nest. Thoroughly wet tree trunks, surface roots and termite trails going into the nest. Also treat bushes and surrounding areas. Repeat every two weeks or as necessary.

STORAGE AND DISPOSAL

Store in a cool place away from heat, direct sunlight, or open flame. Do not reuse container. Discard container in trash.

PRECAUTIONARY STATEMENTS**Hazards to Humans and Domestic Animals**

CAUTION: Harmful if swallowed or absorbed through skin. Avoid breathing vapor and spray mist. Avoid contact with skin and eyes. Wash hands thoroughly after using. Remove pets, birds and cover fish aquariums before spraying. Do not allow people or pets in treated areas until surfaces are dry.

Statement of Practical Treatment

If Swallowed: Call a physician or Poison Control Center immediately. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Repeat until vomit fluid is clear. Never induce vomiting or give anything by mouth to an unconscious person. **If on Skin:** Wash contaminated clothing and wash affected areas with plenty of soap and water. **If in Eyes:** Flush eyes with plenty of water. Call a physician if irritation persists. **If Inhaled:** Remove victim to fresh air. Apply artificial respiration if indicated. **NOTE TO PHYSICIAN:** Active ingredient is a cholinesterase inhibitor. Treat symptomatically. Atropine is antidotal.

Environmental Hazards

This pesticide is highly toxic to fish, birds and other wildlife. Do not apply directly to water. Runoff may be hazardous to aquatic organisms in neighboring areas. Do not contaminate water when disposing of equipment washwater.

NOTICE. Buyer assumes all responsibility for safety and use not in accordance with directions.
