

CAUTION:

CAUTION: Harmful if swallowed, inhaled or absorbed through skin. Avoid breathing of spray mist. Avoid contact with skin, eyes or clothing. In case of contact with skin or eyes flush with plenty of water; for eyes, get medical attention. Wash with soap and water after handling and before eating or smoking; wear clean clothing. Avoid contamination of feed and foodstuffs. Do not apply or allow to drift to areas occupied by unprotected humans or beneficial animals. Do not allow children in treated areas until surfaces are dry. Toxic to fish and wildlife, do not contaminate streams, lakes or ponds with this material.

ANTIDOTE:
EXTERNAL, wash thoroughly with soap and water.

INTERNAL, induce vomiting with emetic of mustard. Call Physician.

ACTIVE INGREDIENTS: 88.34%
0,0-diethyl 0-(2-isopropyl-4-methyl-6-pyrimidyl) phosphorothioate 3.80%; Octachloro-7,7-methanotetrahydroindane 2.28% and 1.52% related compounds; Aliphatic petroleum derivative solvent .04%; Xylene 79.70%.

INERT INGREDIENTS: 11.66%
*Equivalent to 2.28% Octachloro-7,7-methanotetrahydroindane and 1.52% of related compounds.

DIRECTIONS FOR USE

This is concentrated insecticide. To mix, add contents of this can to one gallon of water. DO NOT use until you have thoroughly read instructions attached hereto.

Spray infested surfaces only until wet.
ROACHES, ANTS, WATERBUGS, SILVERFISH, SPIDERS, CRICKETS, EARWIGS: Spray heavily into all cracks, around baseboards and other places where these insects hide. Also spray until wet, surfaces behind and beneath cabinets, refrigerators, sinks, stoves. Spray other localized areas infested with these pests. Repeat treatment as required.

CARPET BEETLES: Make localized application to areas of the floor and baseboards. Spray directly into cracks and under carpets where insects may be found. Treat crevices, cracks or closets and infested areas of shelving. Repeat as necessary.

BROWN DOG TICKS: Thoroughly spray infested areas around baseboards, window and door frames, wall cracks, sleeping quarters of household pets and localized areas of floors and floor coverings. Applications should be repeated as infestations warrant and as reinfestations occur. Fresh bedding should be placed in animal quarters following treatment. Do not treat animals with this formulation.

FLIES, MOSQUITOES, WASPS AND FLYING MOTHS OUTDOORS: For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of doors, window frames or wherever these insects may enter the room. Also treat surfaces around light fixtures on porches, in garages, and other places where these insects alight or congregate.

FLEAS, CHIGGERS, ANTS AND BROWN DOG TICKS OUTDOORS: For treatment of localized infestations of these insects in outdoor areas where there are weeds or brushy non-crop areas, spray infested areas thoroughly. For ants, thoroughly wet hills and runways. Repeat applications as infestations warrant and as re-infestations occur.

NOTE: Do not replace dishes and food until spray is dry. Do not eat any food that has been sprayed.
