READ ENTIRE LABEL BEFORE USE.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING

INDOORS: To kill Roaches, Ants, Crickets, Silverfish, Spiders, Fleas (adult and larvae), Centipedes, Earwigs, Waterbugs and Carpet Beetles:

PRESSURE SPRAYER USE — This is a concentrated insecticide. To mix, add 3 fl. oz. to one quart of water. Spray heavily into cracks, crevices and openings in walls around pipes using a pressure sprayer. Also spray until wet behind and beneath cabinets and appliances, under rugs, around carpet edges, baseboards, doors, window frames, and other points of entry, storage areas and any localized area infested with these pests. For best results use at least monthly - more often if re-infestations occur. *Note: Check carpet manufacturer's warranty and care and maintenance information before using product on your specific brand of carpeting.*

OUTDOORS: To kill Flies, Mosquitoes, Moths, Wasps, Hornets, Ants, Crickets, Earwigs, Centipedes and other listed insects:

(Optional Directions)

PRESSURE SPRAYER USE: Using the same dilution rate as above (mix 3 fl. oz. to 1 quart of water.), apply to outside surfaces of screens, doors, window frames or wherever insects may enter buildings. Also treat surfaces around light fixtures on porches, in garages and other places where insects are seen. Thoroughly spray localized infestations in weeds or brushy non-crop areas. Repeat every two weeks or as often as needed

(Optional Directions)

HOSE-END SPRAYER USE. Set your hose-end sprayer/applicator to apply 6 1/3 fl. oz. of concentrate per 30 gallons of water to cover up to 1,000 sq. ft. or 1 1/4 teaspoons per 1 gallon of water to cover up to 33 sq. ft. (2 teaspoons = 1/3 fl. oz. or 6 teaspoons = 1 fl. oz.). Spray evenly and completely over lawns and other infested areas, giving special attention to areas frequented by pets. Hold about 3 feet above surface, moving at a steady pace to insure consistent, thorough coverage. Repeat treatment as necessary.

(Optional Directions)

READY SPRAY NOZZLE USE:

1. Shake well before using.

2. Connect a garden hose to the ready spray nozzle.

2. Gently sprinkle a total of 1 gallon of the diluted solution ov of each mound using a sprinkling can. Thoroughly wet m

207E

surrounding area to a 4-foot diameter (12 square feet). For best results, apply in cool weather, 65-85°F, or in early morning and late evening hours. Treat new mounds as they appear. Do not use a pressurized spray, since this may disturb the ants and cause migration, reducing product effectiveness.

STORAGE AND DISPOSAL • **Storage:** Store in a cool place away from heat, direct sunlight or open flame. **Disposal:** Securely wrap original container in several layers of newspaper and discard in trash.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals • CAUTION: Harmful if swallowed or absorbed through skin. Avoid breathing vapor and spray mist. Avoid contact with skin, eyes or clothing. Avoid contamination of feed and foodstuffs. Remove pets, birds and cover fish aquariums before spraying. Do not allow children or pets in treated area until surfaces dry. Wash hands thoroughly after spraying.

Statement of Practical Treatment • If Swallowed: Call a physician or Poison Control Center immediately. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Repeat until vomit fluid is clear. Never induce vomiting or give anything by mouth to an unconscious person. **If on Skin:** Wash contaminated clothing and affected areas with plenty of soap and water. **If In Eyes:** Flush eyes with plenty of water. Call a physician if irritation persists. **If Inhaled:** Remove victim to fresh air. Apply artificial respiration if indicated. **Note to Physician:** This product may cause cholinesterase inhibition. Atropine is antidotal. 2-PAM may be effective as an adjunct to atropine.

Environmental Hazards • This pesticide is highly toxic to fish, birds and other wildlife. Do not apply directly to water. Drift and runoff from treated sites may be hazardous to fish in adjacent waters. Do not contaminate water when disposing of equipment washwaters.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
