- ✓ EFFECTIVE INDOORS AND OUTDOORS.
- ✓ NO UNPLEASANT ODOR.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SPRAYER INSTRUCTIONS

More detailed information on application, use and assembly of sprayer attached to sprayer unit.

DO NOT SPRAY DIRECTLY ON PETS!

As an important step in flea control, pets should be treated with a product registered for animal application, such as RID.A.FLEA, before being allowed to re-enter treated indoor areas. Outdoor areas should also be treated to prevent pets from carrying new fleas and ticks indoors. Infestation can re-occur in a continuing cycle if these control measures are not taken.

FLEAS AND BROWN DOG TICKS INDOORS

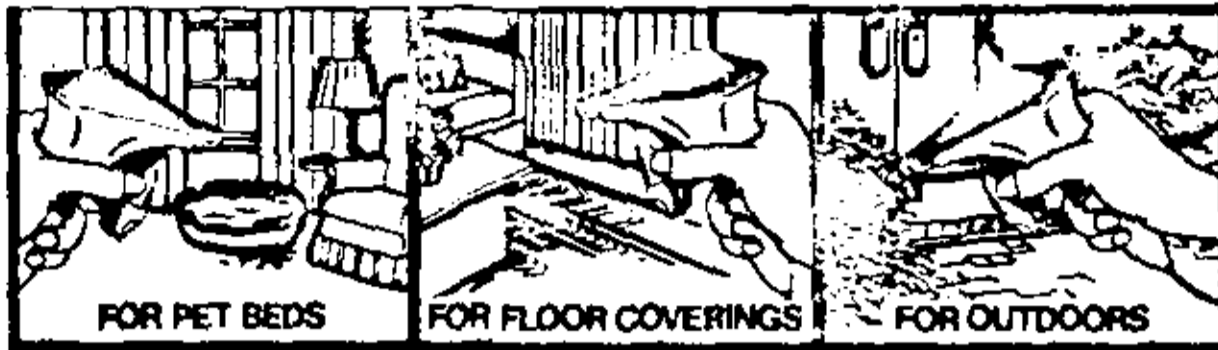

Thoroughly apply as a mist spray to infested areas such as pet beds and resting quarters, localized areas of carpeting and floors, along and behind baseboards, window and door frames where these pests may hide. Old bedding of pets should be removed and replaced with clean, fresh bedding. Spray these same areas again in 7-10 days to kill newly developed fleas which will hatch from eggs left in the carpet or on pets.

FLEAS AND BROWN DOG TICKS OUTDOORS

Spray thoroughly in outdoor areas frequented by pets, on and around porches or patios, in and around doghouses and in sandy or brushy non-crop areas. Repeat as needed.

MONEY-BACK GUARANTEE

When used as directed, we guarantee your complete satisfaction or your money back. The makers and sellers extent of liability in conjunction with the sale of this product is limited to the purchase price. Used as directed, you will obtain lasting results comparable to those received by services of a professional exterminator.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. May be absorbed through skin. Avoid contact with skin, eyes or clothing. Keep away from feed, foodstuffs and domestic water supplies. Do not apply or allow spray to drift to areas occupied by unprotected humans or beneficial animals. Wash hands thoroughly after using. Do not allow children or pets in treated areas until surfaces are dry.

NOTE TO PHYSICIAN: Active ingredient is a cholinesterase inhibitor. Treat symptomatically. Atropine is antidote.

STATEMENT OF PRACTICAL TREATMENT

- If swallowed:** Call physician immediately. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger.
- If on skin:** Remove contaminated clothing and wash exposed areas thoroughly with soap and water.
- If in eyes:** Flush thoroughly with clean water.
- If inhaled:** Move to fresh air.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

DISPOSAL

Do not reuse empty container. Wrap container and put in trash collection.
