

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS
(AND DOMESTIC ANIMALS)**

CAUTION

Harmful if swallowed. Avoid contact with eyes, skin or clothing. Avoid contamination of feed and foodstuffs. Remove pets, birds and cover fish aquariums before space spraying. Do not use on edible crops. Do not remain in treated areas. Ventilate the area when treatment is complete.

FIRST AID

In case of contact immediately flush eyes, and skin with plenty of water for at least 15 minutes. Get medical attention if irritation persists. If swallowed, call a physician.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of lakes, streams, or ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment, or disposal of wastes.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Spot test first on surfaces that can be harmed or stained by water.

STORAGE AND DISPOSAL

Do not reuse empty container. Wrap container and place in trash collection.

Do not use in edible product areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed. In the home, cover all food handling surfaces and cover or remove all food and cooking utensils.

INDOORS Crawling Insects: To kill roaches, ants, fleas, waterbugs, crickets, silverfish, earwigs, spiders, centipedes, carpet beetles keep spray nozzle about 8 to 12 inches from surface to be treated. Spray

thoroughly into hiding places such as cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators, baseboards, storage areas, around doors and windows and spider webs. Spray directly on insects where possible. Repeat as necessary. To kill bedbugs, apply as a spot treatment to cracks and crevices around baseboards, floorboards, bedboards and walls. First, thoroughly clean and air mattresses and springs. Then spot treat only in areas that may harbor bedbugs, concentrating on tufts, folds and seams. Repeat as necessary.

INDOORS Flying Insects: To kill flies, moths and mosquitoes apply as a space spray in a fine mist. Close all doors and windows. Point nozzle upward, directing the spray to all parts of the room, especially windows and other light sources which attract these insects. Leave treated area and keep room closed for at least 15 minutes. Ventilate the room thoroughly when treatment is completed. To kill wasps, yellow jackets, hornets and bees apply in late evening when insects are at rest. Spray liberally into hiding and breeding places especially under attic rafters, contacting as many insects as possible.

OUTDOORS: To kill flies, gnats, mosquitoes and moths spray resting areas to reduce annoyance from these insects. Hold container 18 to 24 inches from shrubs and grassy areas. Spray these areas thoroughly while moving away from treatment area. Similarly treat porches, eaves and patios. Spray only when air is still. Repeat as necessary. To kill wasps, hornets, yellow jackets, bees, ants, fleas, crickets, silverfish, earwigs, spiders, and centipedes refer to specific indoor use direction above.

WARRANTY STATEMENT

Our recommendations for use of this product are based upon tests believed to be reliable. The use of this product being beyond the control of the manufacturer, no guarantee, expressed or implied is made as to the effect of such or the results to be obtained if not used in accordance with directions or established safe practice. The buyer must assume all responsibility, including injury or damage resulting from its misuse as such or in combination with other materials.
