

CAUTION
PRECAUTIONARY STATEMENTS
HUMAN (& DOMESTIC ANIMAL) HAZARDS

Harmful if swallowed or absorbed through the skin. Avoid contact with skin, eyes or clothing. Avoid contamination of feed and foodstuffs. Do not apply or allow to drift to areas occupied by unprotected humans or beneficial animals. Do not allow children or pets in treated areas until surfaces are dry. **Note to Physician: Active ingredients contain a cholinesterase inhibitor. Treat symptomatically. Atropine is antidote.**

STATEMENT OF PRACTICAL TREATMENT

If swallowed: drink one or two glasses of water and induce vomiting by touching back of throat with finger.
If on skin: wash thoroughly with soap and water.
If in eyes: flush thoroughly with clean water.
If inhaled: move to fresh air.

ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds and other wildlife. Keep out of lakes, streams and ponds. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Rid-a-Bug FIRE ANT KILLER is intended as a spot treatment for individual fire ant mounds.

DIRECTIONS FOR USE

Do not use until you have thoroughly read instructions attached hereto. It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Spray infested surfaces only until wet.

TO CONTROL FIRE ANTS: Dilute one and a half pints of Rid-a-Bug FIRE ANT KILLER IN A GALLON OF WATER. Apply 1 gallon of solution as a gentle rain to each fire ant mound using a sprinkler can. Thoroughly wet mound and surrounding area to a 4 foot diameter (12.5 sq. ft.). For best results, apply in cool weather, 65°-80° F. or in early morning or late evening hours. Treat new mounds as they appear. Do not disturb the mound prior to treatment. If possible, treat all mounds in the vicinity, and treat all colonies which may not as yet have constructed a mound.

Larger quantities of solution can be prepared for multiple mound treatments. Equipment to deliver the diluted product as a gentle rain at the rate of 1 gallon per mound is still required. Pressurized sprays may disturb the ants and cause migration, reducing product effectiveness.

Keep children and pets off treated areas until spray has dried. Avoid tracking pesticide into the home via contaminated footwear.

Kenco Chemical & Mfg. Corp. warrants that this product conforms to the chemical description on the label. Neither Kenco nor the seller makes any other warranty, express or implied.

DISPOSAL: Do not reuse empty container. Wrap container and put in trash collection.
