# HOT SHOT®

## PRECAUTIONARY STATEMENTS

### CAUTION

#### Hazards to Humans and Domestic Animals

Harmful if swallowed or absorbed through skin. Avoid breathing vapor and spray mist. Avoid contact with skin and eyes. Remove pets, birds and cover fish aquariums before spraying. Do not apply directly to or around food. Cover or remove any food utensils and food processing equipment during application. Do not apply while food processing is underway. After space spraying in areas where food is handled, wash all equipment, benches, shelving, etc. where exposed food will be handled with potable water.

#### Statement of Practical Treatment • If

**Swallowed:** Call a physician or Poison Control Center immediately. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Repeat until vomit fluid is clear. Never induce vomiting or give anything by mouth to an unconscious person. **If on Skin:** Wash contaminated clothing and wash affected areas with plenty of soap and water. **If in Eyes:** Flush eyes with plenty of water. Call a physician if irritation persists. **If Inhaled:** Remove victim to fresh air. Apply artificial respiration if indicated.

**Environmental Hazards** • This pesticide is highly toxic to fish, birds and other wildlife. Do not apply directly to water or wetlands (swamps, bogs, marshes and potholes). Drift and runoff from treated sites may be hazardous to fish in adjacent waters.

**Physical and Chemical Hazards** • Contents under pressure. Do not use near heat or open flame. Do not puncture or incinerate. Exposure to temperatures above 130°F may cause bursting.

**Storage and Disposal** • **Storage:** Store in a cool place away from heat, direct sunlight, or open flame. Keep in original container and preferably in a locked storage area. **Disposal:** Replace cap and discard container in trash. Do not puncture or incinerate.

#### Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**KILLS: HOUSEFLIES, MOSQUITOES, WASPS, HORNETS, DEER FLIES, GNATS, SPIDERS, ROACHES, ANTS**

## PROFESSIONAL STRENGTH FLYING INSECT KILLER FORMULA 611

**NON-STAINING  
NO OILY FILM  
WATER-BASED**

#### Active Ingredients:

Permethrin .....	0.228%
d-trans Allethrin .....	0.430%
Inert Ingredients: * .....	99.342%
TOTAL .....	100.000%

\* Contains petroleum distillates and aromatic petroleum hydrocarbons.

Keep Out of Reach of Children

### CAUTION

**SHAKE WELL.** Hold can upright. For use only in households and non-food areas of industrial plants. • **Fleas, Mosquitoes and Gnats:** Close all doors and windows. Point nozzle upward. Direct spray mist to all parts of the room, especially windows and other light sources which attract these insects. Fill the room with mist, then leave the treated area. Keep the room closed for at least 15 minutes. Ventilate the room when treatment is completed. Sweep up and destroy fallen insects. Repeat as necessary. • **Wasps and Hornets - Space Spray:** Before applying, close all doors, windows and ventilator openings. In unfinished attics and crawl spaces where direct spray cannot reach pests, point nozzle upward and fill the area with mist at the rate of 35 seconds per 1,000 cu. ft. of space. Leave treated area immediately after application is completed, closing off area for at least 30 minutes. Ventilate area when treatment is complete. Repeat as necessary. • **Crawling Insects:** Roaches, earwigs, grain mites, sowbugs, spiders and centipedes: Spray thoroughly into cracks, crevices, moist areas, openings around pipes and sinks, under refrigerators, baseboards and storage areas. Spray directly on insects where possible as a contact spray. Repeat applications as necessary. • **Ants:** Spray trails, nests and points of entry. • **Outdoors - Reduce Annoyance From Flying Insects Around Recreational Areas and Homes, Kills Mosquitoes, Gnats (Midges), Houseflies, Deer Flies and Small Flying Moths (Millers)** by spraying their nesting areas. Hold container 18 to 24 inches from shrubs, bushes and grassy areas. Spray these areas with a slow sweeping motion at the rate of from 1 to 3 seconds per cubic yard of space while moving away from the treated areas. To reduce annoyance from these flying insects treat open porches and patios in a similar manner. Spray only when the air is still. Allow spray to dissipate before occupying the treated area. Repeat as necessary. • **Nuisance Pests - On or Entering Buildings** • **Wasps and Hornets:** Applications should be made in late evening when insects are at rest. Spray liberally into hiding and breeding places contacting as many insects as possible. Spray directly on stray wasps that enter buildings. • **Spiders:** Direct short burst of spray on spiders. • **IMPORTANT - Sweep up all dead insects and deposit these sweepings into a closed garbage container within two hours after each treatment.** • **NOTICE:** Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
