Dear Mr. King:

Subject: Reregistration of Products Containing Sumithrin
Hot Shot Hit Flying Insect Killer - Formula 621
EPA Registration No. 8845-67
Your Application Dated August 20, 1990

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable provided that you make the labeling changes indicated below prior to release for shipment of product bearing the amended labeling.

1. Delete "Resmethrin" from the ingredients statement and add the chemical name for Sumithrin in its place.
2. In the Environmental Hazards statement, after "(swamps, bogs, marshes and potholes)," add "Cleaning of equipment or disposal of wastes must be done in a manner that avoids contamination of bodies of water or wetlands."
3. Use in food handling establishments can imply use in U.S. Department of Agriculture (USDA) Meat and Poultry Plants. Therefore, either add the statement "Not for Use in USDA Meat and Poultry Plants" or submit an application to USDA requesting these areas. If granted you can then indicate on the label that the product can be used in these areas.
4. In the directions for Carpet Beetles, add "Allow treated areas to thoroughly dry before occupying."

5. As labeled, the product seems to be for spot treatments. However, you give directions for "cracks and crevices" and "openings around sinks and pipes and other hiding places." Does the product come with a nozzle tube attachment or other method for these applications? If not, delete these methods and sites from the labeling.

Submit five (5) copies of your final printed labeling before you release the product for shipment.

A stamped copy of the labeling is enclosed for your records.

Sincerely yours,

Phil Hutton

PRECAUTIONARY STATEMENTS

CAUTION

Hazards to Humans and Domestic Animals

Harmful if swallowed or absorbed through skin. Avoid breathing vapor and spray mist. Avoid contact with skin and eyes. Remove pets, birds and cover fish aquariums before spraying. Do not apply directly to or around food. Cover or remove any food utensils and food processing equipment during application. Do not apply while food processing is underway. After space spraying in areas where food is handled, wash all equipment, benches, shelving, etc. where exposed food will be handled with potable water.

Statement of Practical Treatment

If Swallowed: Call a physician or Poison Control Center immediately. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Repeat until vomit fluid is clear. Never induce vomiting or give anything by mouth to an unconscious person. **If on Skin:** Wash contaminated clothing and wash affected areas with plenty of soap and water. **If In Eyes:** Flush eyes with plenty of water. Call a physician if irritation persists. **If Inhaled:** Remove victim to fresh air. Apply artificial respiration if indicated.

Environmental Hazards

This pesticide is highly toxic to fish, birds and other wildlife. Do not apply directly to water or wetlands (swamps, bogs, marshes and potholes). Drift and runoff from treated sites may be hazardous to fish and to aquatic organisms in adjacent waters.

Physical and Chemical Hazards

Contents under pressure. Do not use near heat or open flame. Do not puncture or incinerate. Exposure to temperatures above 130°F may cause bursting.

Storage and Disposal

Storage: Store in a cool place away from heat, direct sunlight, or open flame. Keep in original container and preferably in a locked storage area. **Disposal:** Replace cap and discard container in trash. Do not puncture or incinerate.

Directions for Use • It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **SHAKE BEFORE USE. HOLD CONTAINER UPRIGHT. APPLY IN SHORT BURSTS.**

HOT SHOT®

CAUTION

See Back Panel for Additional
Precautionary Statements

Net Wt. 15.5 oz.

For use only in Households, and non-food areas of
Warehouses, Hotels, Motels, Food Processing Plants,
Theaters, Schools and Offices.

To kill Houseflies, Mosquitoes, Small Flying Moths and Gnats: Close all doors and windows and direct spray upward into center of room with a slow sweeping motion. Spray until room is filled with mist. Keep room closed for 15 minutes after spraying. Ventilate room thoroughly before reentry. Sweep up and destroy fallen insects. To kill Cockroaches, Ants and Crickets: Contact as many insects as possible with the spray in addition to thorough spraying of all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, hidden surfaces under sinks, behind stoves and refrigerators, food storage areas and wherever these pests are suspected of hiding. To kill ants, treat doors, around window frames, ant trails and other areas of entry. Repeat as necessary. To kill Carpet Beetles: Directly spray as many insects as possible. Spray both interior and exterior of upholstered furniture. Both top and bottom of rugs and carpets should be sprayed thoroughly. Also treat shelves, closets, areas under furniture and wherever these insects are seen or suspected. Repeat as necessary. To kill Exposed Forms of Confused Flour Beetles, Saw-toothed Grain Beetles, and Rice Weevils: Find and destroy infested package goods. Remove all other items from pantry. Spray the shelves to kill any of the named insects present. Place clean paper on the shelves and return packages after shelves have dried. Repeat as necessary. To kill Sowbugs, Centipedes, Firebrats and Spiders: Contact as many insects as possible with the spray. Also thoroughly spray all parts of the room suspected of harboring these pests. Special attention should be paid to cracks, crevices, hiding surfaces under sinks, behind stoves and refrigerators. To kill Fleas, and Brown Dog Ticks: Remove and destroy pet's old bedding. Spray sleeping quarters of pets, around baseboards, window and door frames, wall cracks and local areas of floors. Repeat as necessary. **DO NOT SPRAY ANIMALS.** Put fresh bedding in pet's quarters after spray has dried. Also treat dogs and cats with a registered flea and tick control product before allowing them to enter treated area.

NOTICE: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
