PRECAUTIONARY STATEMENTS CAUTION

Hazards to Humans and Domestic Animals

Harmful if swallowed or absorbed through skin. Avoid breathing vapor and spray mist. Avoid contact with skin and eyes. Remove pets, birds and cover fish aquariums before spraying. Do not allow children or pets in treated areas until surface are dry. Avoid tracking pesticides into the home via contaminated footwear. Do not apply directly to food in commercial food handling facility. Cover or remove any food utensils and food processing equipment during application. Do not apply while food processing is underway. After space spraying in packing plant, bakery and other food processing plants, wash all equipment, benches, shelving, etc. where exposed food will be handled with potable water.

Statement of Practical Treatment

If Swallowed: Call a physician or Poison Control Center immediately. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Repeat until vomit fluid is clear. Never induce vomiting or give anything by mouth to an unconscious person. **If on Skin:** Wash contaminated clothing and wash affected areas with plenty of soap and water. **If in Eyes:** Flush eyes with plenty of water. Call a physician if irritation persists. **If Inhaled:** Remove victim to fresh air. Apply artificial respiration if indicated. **NOTE TO PHYSICIAN:** This product may cause cholinesterase inhibition. Atropine is antidotal. 2-PAM may be effective as an adjunct to atropine.

Environmental Hazards

This pesticide is highly toxic to fish, birds and other wildlife. Do not apply directly to water or wetlands (swamps, bogs, marshes and potholes). Drift and runoff from treated sites may be hazardous to fish in adjacent waters. Do not contaminate water when disposing of equipment washwaters.

Physical and Chemical Hazards

Do not use or store near heat or open flame.

Storage and Disposal

Storage: Store in a cool place away from heat, direct sunlight, or open flame. Keep in original container and preferably in a locked storage area. **Disposal:** Securely wrap original container in several layers of newspaper and discard in trash.

HOT SHOT.

FIRE ANT KILLER

Formula 901

Controls Fire Ant Mounds
Makes 2.5 gallons of
mound drenching solution

Active Ingredients:

Chlorpyrifos [O,O-Diethyl O-(3,5,6-trichloro-2-pyridinyl) phosphorothioate]	1.00%
Inert Ingredients*	99.00%
Total	100.00%

*Contains aromatic hydrocarbons

Keep Out of Reach of Children

CAUTION

See Back Panel for Additional
Precautionary Statements

Net Wt. 32 fl. oz. (1 quart) (0.946 liters)

Directions for Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Hot Shot Fire Ant Killer is for outdoor use only and is designed for spot treatment of individual fire ant mounds.

SHAKE WELL BEFORE USING

To kill Fire Ants: Dilute 12 ounces of Hot Shot Fire Ant Killer in 1 gallon of water. Apply 1 gallon of solution to each fire ant mound as a gentle rain using a sprinkler can. Thoroughly wet mound and surrounding area to a 4 foot diameter (12.5 square feet). For best results, apply in cool weather, 65-80°F, or in early morning or late evening hours. Treat new mounds as they appear. Do not disturb the mound prior to treatment. If possible, treat all mounds in the vicinity and treat all colonies which may not as yet have constructed a mound.

Larger quantities of solution can be prepared for multiple mound treatments. Equipment to deliver the diluted product as a gentle rain at the rate of 1 gallon per mound is still required. Pressurized sprays may disturb the ants and cause migration, reducing product effectiveness.

NOTICE: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
