Subject: Label Amendment - Updating First Aid Statement in Accordance with PR Notice 2001-1, Disposal Instructions conforming to PR Notice 2001-6
Hot Shot Roach and Ant Killer Formula PRWB-1
EPA Reg. No. 8845-122
Your Submission Dated July 1, 2003

Dear Ms. Tryson:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. Two (2) copies of the finished labeling must be submitted prior to releasing the product for shipment. A stamped copy of the label is enclosed for your records.

1. Reinstate "*cis-trans isomer ratio: Min 35% (+/-) cis, Max. 65% (+/-) trans" to the Ingredients Statement.
2. Following the paragraph that identifies where the product can be used add: "Non-food/feed areas include area such as (but not limited to) garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage areas (after canning or bottling).

If you have any questions regarding this action, please contact BeWanda Alexander of my team at (703) 305-7460.

Sincerely,

George T. LaRocca

Other Ingredients:	99.48%
Total	100.00%

Keep Out of Reach of Children

CAUTION See Back Panel for Additional Precautionary
 Statements

NET WT. 16 OZ. / 453 g

Residually Kills: Roaches, Ants, Spiders, Crickets, Silverfish, Earwigs and other listed insects.

For use in homes and non-food areas of kennels, commercial
 buildings, warehouses, theaters, office buildings, schools,
 hotels, motels, restaurants and food processing facilities.

STOP. READ ENTIRE LABEL BEFORE USE.

DIRECTIONS FOR USE: It is a violation of Federal law
 to use this product in a manner inconsistent with its labeling.
 Use this residual spray as a spot or crack and crevice
 treatment to control cockroaches, waterbugs, silverfish, ticks,
 fleas and other insects listed below. Apply this product to
 localized areas where pests are found or may occur. Spray
 surfaces until wet. Care should be taken to avoid depositing
 the product onto exposed surfaces or introducing the material
 into the air. Avoid contamination of food or food processing
 surfaces. Do not use in commercial food processing,
 preparation, food storage or serving areas. In the home, all
 food processing surfaces and utensils should be covered
 during treatment, or thoroughly washed before use. Exposed
 food should be covered or removed. Remove pets, birds and
 cover fish aquariums before spraying. Do not allow children or
 pets to contact treated surfaces until spray has dried.

FOR SPOT TREATMENT

**To kill Ants, Cockroaches, Crickets, Silverfish, Spiders,
 Sowbugs, Earwigs and Carpet Beetles:** Spray areas where
 these pests are found or may hide, including dark corners of
 rooms and closets; cracks and crevices in walls; along
 baseboards and door and window frames; behind and beneath
 sinks, stoves, refrigerators and cabinets; and around garbage
 cans, plumbing and other utility installations. Pests driven out
 of hiding places should be sprayed directly. For ants, apply to
 ant trails, also around doors and windows and wherever else
 these pests may find entrance.

Flies and Mosquitoes: Use only out-of-doors as an aid in
 reducing annoyance from these insects. Spray outside
 surfaces of window and door frames as well as other areas
 where these pests may enter the home. Also spray dark
 corners and localized resting areas (such as under eaves) or
 porches, patios and garages where these insects may
 congregate. Flies and mosquitoes coming to rest on treated
 surfaces will be killed.

To kill Brown Dog Ticks and Fleas: Thoroughly apply as a
 spot treatment to infested areas such as pet beds and resting
 quarters; nearby cracks and crevices; along and behind

baseboards; window and door frames and localized areas of
 floor and floor coverings where these pests may be present.
 Old bedding should be removed and replaced with clean, fresh
 bedding after treatment. **DO NOT SPRAY PETS WITH THIS
 PRODUCT.** Pets should be treated with a registered product
 for flea and tick control in conjunction with this treatment.

FOR CRACKS AND CREVICES

**To kill Ants, Cockroaches, Crickets, Silverfish, Sowbugs,
 Spiders, Brown Dog Ticks, Fleas, Earwigs and Carpet
 Beetles:** Apply spray in small amounts directly into cracks and
 crevices.

STORAGE AND DISPOSAL

Store in a cool dry area away from heat and open flame.
Disposal: Do Not Puncture or Incinerate! **If empty:** Place in
 trash or offer for recycling if available. **If partly filled:** Call
 your local solid waste agency or 1-800-CLEANUP for disposal
 instructions.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if swallowed, inhaled or absorbed
 through skin. Avoid breathing spray mist. Avoid contact with
 skin, eyes or clothing. Wash thoroughly with soap and water
 after handling. Remove contaminated clothing and wash
 clothing before reuse.

First Aid

If Swallowed: Call Poison Control Center or doctor
 immediately for treatment advice. Have person sip a glass of
 water if able to swallow. Do not induce vomiting unless told to
 do so by the Poison Control Center or doctor. Do not give
 anything by mouth to an unconscious person. **If Inhaled:**
 Move person to fresh air. If person is not breathing, call 911 or
 an ambulance, then give artificial respiration, preferably by
 mouth-to-mouth, if possible. Call a Poison Control Center or
 doctor for further treatment advice. **If on Skin or Clothing:**
 Take off contaminated clothing. Rinse skin immediately with
 plenty of water for 15-20 minutes. Call a Poison Control Center
 or doctor for treatment advice.

Have the product container or label with you when calling a
 Poison Control Center or doctor going for treatment.

Physical and Chemical Hazards

Contents under pressure. Do not use or store near heat or
 open flame. Do not puncture or incinerate container. Exposure
 to temperatures above 130°F may cause bursting.
