

BLACK JACK
FLEA AND TICK KILLER FOR CARPETS AND RUGS

Precautionary Statements — Accords to Home and Domestic Animals
CAUTION: Harmful if swallowed or absorbed through skin. Avoid breathing vapors. Avoid contact with skin. In case of contact, immediately flush skin with plenty of water.
 Do not use in commercial food processing, storage, preparation or serving areas in the home. All food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Cover exposed food.
 Remove pets, birds and cover fish aquariums before spraying.
PHYSICAL HAZARDS: Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate containers. Exposure to temperatures above 130°F may cause bursting.

DIRECTIONS FOR USE — GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

Storage: Store in a cool area away from heat or open flame.
Disposal: Do not reuse empty container. Wrap container and put in trash collection canks before use. **NEVER CONTAINED UPRIGHT. APPLY IN SHORT BURSTS.**
To Kill Fleas and Brown Dog Ticks: Directly spray as many insects as possible. Spray both interior and exterior of upholstered furniture. Both top and bottom of rugs and carpets should be sprayed thoroughly. Also treat shelves, closets, areas under furniture and wherever these insects are seen or suspected.
Remove and destroy pet's old bedding. Spray sleeping quarters of pets, around baseboards, window and door frames, wall cracks and focal areas of floors. Repeat as necessary. Do not spray animals. Put fresh bedding in pet's quarters. Let spray dry. Also treat dogs and cats with a registered flea and tick control product before allowing them to enter treated area.
To Kill House Flies, Mosquitoes, Small Flying Insects, Gnats and Wasps: Close all doors and windows and direct spray upward into center of room in a slow sweeping motion. Spray 5-10 seconds for average room. Keep room closed for 15 minutes after spraying. Ventilate room thoroughly before re-entry. Sweep up and destroy fallen insects.
To Kill Cockroaches, Ants and Crickets: Contact as many insects as possible with the spray in addition to thorough spraying of all parts of the room suspected of harbouring these pests. Special attention should be paid to cracks, hidden surfaces under sinks, behind stoves and refrigerators, food storage areas and wherever these pests are suspected of hiding. To kill ants, treat doors, around window frames, ant trails and other areas of entry. Repeat as necessary.
To Kill Carpet Beetles: Directly spray as many insects as possible. Spray both interior and exterior of upholstered furniture. Both top and bottom of rugs and carpets should be sprayed thoroughly. Also treat shelves, closets, areas under furniture and wherever these insects are seen or suspected. Repeat as necessary.
To Kill Unusual Forms of Combined Floor Beetles, Saw Tooth, Grain Beetles, and Rice Weevils: Tuck and destroy infested package goods. Remove all other items from pantry. Spray the shelves to kill any of the named insects present. Place clean paper on the shelves and return packages after shelves have dried. Repeat as necessary.
To Kill Sawflies, Centipedes, Firebrats and Spiders: Contact as many insects as possible with the spray. Also thoroughly spray all parts of the room suspected of harbouring these pests. Special attention should be paid to cracks, crevices, hidden places under sinks, behind stoves and refrigerators.
