6. For data matrix requirements, you must provide the following:

a. Statement of Composition - a complete description of the manufacturing/formulation process. Describe equipment used, mixing time, temperature, etc.

CARRE

b. Storage Stability - the formulated product must be analyzed for its active ingredient at time zero and during a year of storage. You must submit this data within 14 months from the date of this Notice.

Note: For the Storage Stability study, you cannot reference the concentrate you are using to formulate your product.

- 7. In regard to labeling corrections/additions, the following comments apply:
  - a. Add the following to the Statement of Practical Treatment:

If Inhaled - Remove victim to fresh air.

Apply artificial respiration if necessary.

b. Revise the "If Swallowed" statement to read similar to the following:

If swallowed - Call a physician or Poison Control Center immediately. Gastric lavage is indicated if material was taken internally. DO NOT INDUCE VOMITING. Vomiting may cause aspiration pneumonia.

- c. The statement, "Contains Petroleum Distillate" must be added bone of he the label ingredient statement.
- d. Add the statement:

Do not use in edible product areas of food processing plants, restaurants, or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

8. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIPRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

## **Precautionary Statements**

# Hazards to Humans and Domestic Animals CAUTION

May be harmful if swallowed, inhaled or absorbed through skin. Avoid breathing spray mist and provide adequate ventilation of area being treated. Avoid contact with skin, eyes and clothing. In case of contact immediately flush skin and eyes with plenty of water. Wash thoroughly with soap and water after handling. If poisoning occurs, get prompt medical aid.

Do not use in commercial food processing preparation, food storage or serving areas. In the home, all food processing surfaces and utensils should be covered during treatment, or thoroughly washed before use. Exposed food should be covered or removed.

Remove pets, birds and cover fish aquariums before spraying. Do not allow children or pets to contact treated surfaces until spray has dried.

# Physical or Chemical Hazards

FLAMMABLE. Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

#### **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Black Jack Roach & Ant Killer XVII

General: Use Residual Spray fr.m as a spot or crack and crevice treatment to control cockroaches, waterbugs, silverfish, ticks, fleas and other insects listed below. Apply this product only as a coarse spray or crack and crevice treatment to localized areas where pests are found or may occur. Spray surfaces until wet. Repeat as needed.

### For Spot Treatment:

To Kill Ants, Cockroaches, Crickets, Silverfish, Spiders, Sowbugs and Carpet Beetles:
Spray areas where these pests are found or may hide, including dark corners of rooms and;
closets; cracks and crevices in walls; along baseboards and door and window frames; behind
and beneath sinks, stoves, refrigerators, and cabinets and around garbage cans, plumbing
and other utility installations. Pests driven out of hiding places should be sprayed;
directly. For ants, apply to ant trails, also around doors and windows and wherever else
these pests may find entrance. Repeat as necessary.

6/6

such as pet beds and ( ting quarters, nearby cracks ( crevices, along and behind base-boards, window and door frames and localized areas of floor and floor coverings where these pests may be present. Old bedding should be removed and replaced with clean, fresh bedding after treatment. Do Not Spray Pets With This Product.

For Crack and Crevice:

To Kill Ants, Cockroaches, Crickets, Silverfish, Sowbugs, Spiders, Brown Dog Ticks, Fleas, and Carpet Beetles: Apply diluted spray in small amounts directly into cracks and crevices Equipment capable of delivering a pin stream should be used in points between different elements of construction, between equipment and floors, openings leading to voids and hollo spaces in walls, equipment legs and bases where the above listed insects hide.

Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

Flies and Mosquitoes: Use only out of doors as an aid in reducing annoyance from these insects. Spray outside surfaces of window and door frames as well as other areas where these pests may enter the home. Also spray dark corners and localized resting areas (such as under eaves) or porches, patios and garages where these insects may congregate. Flies and mosquitoes coming to rest on treated surface will be killed. Repeat treatment when necessary.

#### STORAGE AND DISPOSAL

Storage: Store in a cool dry area away from heat or open flame.

Disposal: Do not reuse empty container. Wrap container and put

in trash collection.
