

US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) WASHINGTON, DC 20460 NOTICE OF PESTICIDE: <input type="checkbox"/> REGISTRATION <input type="checkbox"/> REREGISTRATION <i>(Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended)</i>	EPA REGISTRATION NO. 8866-24	DATE OF ISSUANCE SEP 8 1991
	TERM OF ISSUANCE	
	NAME OF PESTICIDE PRODUCT Arco Concentrated Pool Chlorine	

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Arco Industries, Inc.
4871 North 119th Street
Milwaukee, WI 53225

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/continue all data or other material required for registration/reregistration of your product under FIFRA section 3(c)(5) and FIFRA section 4 when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 8866-24" to your label before you release the product for shipment.
3. Make the labeling changes listed below before you release the product for shipment:
 - a. Under the "Instructions" heading add the statement:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
 - b. Delete "Rinse empty container . . . it" sentence from under the Keep Out Of Reach Of Children warning in center panel.

SIGNATURE OF APPROVING OFFICIAL	DATE SEP 8 1991
---------------------------------	---------------------------

2 of 3

- c. Place "Keep Out Of Reach Of Children" above the signal word "DANGER" in the center panel.
- d. Add a "Precautionary Statements" heading above DANGER on the right panel.
- e. Place a "Storage and Disposal" heading above the paragraph which begins "Strong oxidizing agent"
- f. Add an "Environmental Hazards" heading above last paragraph on right panel. "This product is toxic to fish"

4. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

registered under EPA Reg. No.
8866-24

CONCENTRATED POOL CHLORINE

The instructions are greatly simplified using ARCO CONCENTRATED POOL CHLORINE. In fact, you will require from 10 to 20 times the amount of acid as a by-product. ARCO CONCENTRATED POOL CHLORINE provides a more stable chlorine residual for easier maintenance and a higher residual chlorine water for its disinfecting action. It requires less storage space and maintains a constant strength regardless of storage time. Use the same amount of ARCO CONCENTRATED POOL CHLORINE as you would use for ARCO CONCENTRATED POOL CHLORINE.

INSTRUCTIONS

When starting a new pool, super-chlorinate immediately after demand and water is added. The residual of 1.0 ppm to 1.5 ppm available chlorine. To maintain this residual, use ARCO CONCENTRATED POOL CHLORINE per the label directions. For water treatment, use ARCO CYNURIC ACID at the rate of 4.0 ppm per 10,000 gallons of water.

ARCO CONCENTRATED POOL CHLORINE should be added daily or as needed at the rate of 1.0 to 2.0 ppm per 10,000 gallons of water to maintain a chlorine residual of 1.0 to 1.5 ppm. The chlorine demand is determined by a chlorine test kit. The pH should be maintained between 7.2 and 7.6.

A shock treatment should be made whenever there is a change in weather. During hot weather, for the shock treatment, use ARCO CONCENTRATED POOL CHLORINE at 100 gallons of pool water. Swimmers should not be allowed in the pool after the shock treatment until the chlorine residual has reached the 1.0 ppm to 1.5 ppm range. Keep in mind that a slight flexibility must be maintained in the event of heavy accumulations of dust and dirt caused by storms or super heavy bathing loads which require additional dosages as needed to maintain the chlorine residual between 1.0 and 1.5 ppm.

CONCENTRATED

POOL CHLORINE

FOR SWIMMING POOL DISINFECTION

DRY GRANULAR CHLORINE

Keep out of reach of children. Use only as directed. Do not use in swimming pools. Do not use in hot tubs. Do not use in spas. Do not use in whirlpools. Do not use in fountains. Do not use in decorative fountains. Do not use in ponds. Do not use in lakes. Do not use in streams. Do not use in rivers. Do not use in oceans. Do not use in any other body of water.

ACTIVE INGREDIENT

Calcium hypochlorite 65.0%
Inert ingredients 35.0%
