USDA Reg. No. 8880-1, 07-006-01, TEXAS PERMIT NO. 84

**CAUTION:** Do not feed to lactating dairy animals. Occasional sensitivity to Phenothiazine has been reported in cattle. Keep out of reach of children.

**FEDDING DIRECTIONS**

To be fed Free Access to all ruminants in the pasture. Consumption should be 1-1 1/2 pound per head per day. This supplement should be available with roughage and water at all times. Place in troughs, buckets, or near the watering areas. SHAWNEE'S 3-IN-ONE (MEDICATED) Pasture Supplement furnishes all the necessary Mineral Elements and Vitamins to meet requirements of Beef Cattle and Sheep during the fall months and should be fed as directed.

SHAWNEE'S 3-IN-ONE (MEDICATED) Pasture Supplement contains an active drug ingredient which has been shown to be effective against the horn fly and guaranteed to kill 90% of the horn fly population in an average of 90% or more of the horn flies in the manure of treated cows and as directed.

For maximum effectiveness, the fly should be sprayed at the start of the fly season with SHAWNEE'S 3-IN-ONE (Medicated) Pasture Supplement. It may be fed again every 4 weeks before the fly season until all adult horn flies have disappeared. SHAWNEE'S 3-IN-ONE (Medicated) Pasture Supplement prevents breeding of horn flies and face flies in the manure of treated cattle and does not affect any of the harmful flies. For internal parasite control, the product should be fed on a regular basis. For control of face flies, the product should be fed on a regular basis. For control of horn flies, the product should be fed on a regular basis. For control of horn flies, the product should be fed on a regular basis.
