**Directions for**

It is a violation of Federal law to use this inconsistent with its labeling.

To be used in governmental mosquito control and by professional pest control operators. This product is for control of mosquito larvae in floodwater areas, and other areas where they develop. It should be applied at normal use rates of 1 gal./acre or less. Under special circumstances, such as extremely dense vegetation or water of high turbidity, rates to a maximum of 5 gal./acre may be used. Petroleum oils may produce an unsightly residue. This product should not be used when this condition exists. Avoid application to surfaces when damage may result. Use particular care to avoid damage where areas containing fish or wildlife.

**STORAGE AND DISPOSAL**

Do not use, store, pour or spill near flames or excessive heat. If drum is leaking, stop use and seal the leak. Absorb spilled materials with vermiculite and sweep up.

**Prohibitions:**

Do not contaminate water, food, or feed. Do not use for disposal.

**Pesticide Disposal:**

Wastes resulting from the use of this product should be disposed of on site or at an approved facility.

**Container Disposal:**

Triple rinse (or equivalent). Then offer for recycling, or reconditioning, or puncture and dump at a sanitary landfill, or by other procedure approved by state and local authorities.
