

DIRECTIONS FOR USE

COTTON: Ring Around 529 is useful as a directed post-emergence spray for controlling weeds in cotton, such as Johnson Grass, Cocklebur, Nutgrass, Goosegrass, Watergrass, and Dallis Grass.

Mix at rate of 5 quarts of Ring Around 529 in 100 gallons of water. Apply as a DIRECTED broadcast spray at rate of 40 gallons of this solution per acre. Keep spray off cotton foliage. Ring Around 529 is a combination of a suitable non-ionic surfactant (wetting agent) and herbicide. It is not necessary to add any other surfactant to the spray solution. For hand applications, apply at the rate of one gallon of spray mixture for each one inch of band width to be treated on cotton in a 49 inch row base. A second or repeat application may be required during humid growing conditions. The second application, if needed, should be timed about one to three weeks after the first application.

APPLY ONLY WHEN COTTON IS 1-3 INCHES HIGH TO FIRST BLOOM. DO NOT APPLY AFTER FIRST BLOOM. DO NOT FEED TREATED FOLIAGE TO LIVESTOCK, OR GRAZE TREATED AREAS.

APPLICATION METHODS: Ring Around 529 herbicide should be applied with a low volume sprayer, having satisfactory pumping and type selection. Nozzles should be placed so as to avoid spraying the cotton canopy but also give good coverage of the weeds and grasses. Proper coverage is very important. Adjust nozzle to allow maximum coverage of weeds and grasses.

Light damage to red-bellied cotton may occasionally be seen following recommended treatment but cotton plants will develop normally. Yield will not be affected.

NON-CROP: Ring Around 529 has been found to be useful and effective in controlling Johnson Grass, Cocklebur, Nutgrass, Watergrass, Dallis Grass and many similar weeds on ditchbanks, fence rows, rights-of-way, storage yards and similar non-crop areas. Apply during warm weather when weeds are in active stage of growth. Mix at rate of 2 to 5 quarts of Ring Around 529 in 100 gallons of water. It is not necessary to include additional surfactant (wetting agent). Spray undesirable vegetation thoroughly to the point of runoff. Adequate coverage and complete wetting of foliage is very important. Repeat applications may be necessary if regrowth occurs.

DO NOT CONTAMINATE WATERS USED FOR DOMESTIC CONSUMPTION OR BY ANIMALS OR WATER USED FOR IRRIGATION PURPOSES

LAWN AND ORNAMENTAL TURF: Ring Around 529 Herbicide is useful for control of dallisgrass, sandbur, bahiagrass, nutsege, barnyard grass, chickweed, and wood sorrel with little or no injury to good grasses on lawns. On new lawns, do not treat until after three mowings. Good grasses may be temporarily discolored. Zoysia, bluegrass and bermuda are quite tolerant. Do not use on St. Augustine or Centipede.

Mow lawns to 1 to 1½ inches high before treatment. Mix two fluid ounces (4 tablespoons) of 529 Herbicide in 5 gallons of water and apply to an area of 1,000 sq. feet. Spray thoroughly to wet all desirable plants. Repeat applications, 10 to 14 days apart, may be needed for good control.

MIXING INSTRUCTIONS: Ring Around 529 herbicide must be thoroughly dissolved. Fill the spray tank about half full with water, and with the pump operating, add the required amount of Ring Around 529 herbicide. Finish filling the tank with water and apply. If preferred Ring Around 529 herbicide can be pre-mixed by dissolving the required amount of 529 in 3 to 5 gallons of water in an open container. This pre-mix should then be placed in the partially filled tank and the tank filled with water.

Do not store spray solution in tank for a prolonged period. Flush application equipment thoroughly after use by flushing with water.

CAUTION

HARMFUL IF SWALLOWED

AVOID CONTACT WITH SKIN, EYES AND CLOTHING

AVOID BREATHING SPRAY MIST

AVOID STORAGE NEAR FEED OR FOOD PRODUCTS

KEEP AWAY FROM CHILDREN AND DOMESTIC ANIMALS

Do not contaminate water by cleaning equipment or disposal of wastes. Apply this product only as specified on this label.

DO NOT reuse empty container. Destroy it by perforating or crushing. Bury or discard in a safe place.

READ ENTIRE LABEL BEFORE USING THIS PRODUCT

Use of this material in a manner, or at any time other than in accordance with the directions, may produce plant injury, excessive residues, or other undesirable results.

NOTICE

Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
