PERLITE plus SEVIN*

DIRECTIONS FOR USE

WHEN TO APPLY: In late June and July when numerous moths can be seen flying low over bluegrass lawns during early evening. Applying **Perlite Plus SEVIN*** sod webworm granules anytime within the next week will prevent damage from hatching worms. If damage was heavy the preceding year an early application will prevent spring damage from over-wintering worms.

APPROXIMATE SPREADER SETTINGS

Scott and Lawn Beauty	6
Greenfield and Central	7
Cyclone and Similar Spreaders	4

HOW TO APPLY: For best results cut lawn close, remove clippings and water before treatment to bring lawn insects to the surface.

Treat the entire lawn evenly and thoroughly at the rate of 4 pounds of **Perlite Plus SEVIN* Granular Insecticide** per 1000 sq. ft. Apply with a spreader for uniform coverage. Work material in with a coarse water spray after treatment. **Perlite Plus SEVIN* Granular Insecticide** will aid in the control of fall armyworms, ants and millipedes.

CAUTION: Harmful if swallowed or inhaled. Do not take internally. Avoid contact with skin. Wash thoroughly after handling. Change contaminated clothing daily. Avoid contamination of feed and foodstuffs. Keep out of reach of children. Avoid breathing of dust.

Dispose of the empty plastic bag in trash disposal container immediately. Do not attempt to use bag for any other purpose.

NOTICE: Seller's guarantee shall be limited to the terms of the label and subject thereto the buyer assumes any risk to persons or property arising out of the use or handling and accepts the product on these conditions.
