

50 LBS. NET WT.

TURF MAGIC LAWN FOOD 12-4-4
containing chlordane

is a highly effective combination of chemical and natural fertilizer with insecticide. When applied as recommended, this product will feed your grass & control white grubs and the following surface and soil insects.

GUARANTEED ANALYSIS

Total Nitrogen (N)	12.00%
Ammoniacal Nitrogen	11.2%
Water Insoluble Nitrogen	5%
Available Phosphoric Acid (P ₂ O ₅)	4.00%
Soluble Potash (K ₂ O)	4.00%
Primary Plant Food derived from:	
Sulfate of Ammonia, Diammonium Phosphate, Sulfate of Potash Magnesia, Tong Meal, Blood Meal, Bone Meal, and Cottonseed Meal	
Magnesium	2.50%
Sulfur (combined)	15.00%
Iron	1.00%
Manganese	.80%
Zinc	.85%
Secondary Plant Food & Trace Elements derived from:	
Sulfate of Potash Magnesia, Iron Sulfate, Manganese Sulfate, Zinc Sulfate & EDTA Iron Chloride, Sulfur and Magnesium derived from Sulfate of Potash Magnesia and Ammonium Sulfate.	
Natural Plant Food derived from: Bone Meal, Blood Meal, Cottonseed Meal & Tong Meal.	
ACTIVE INGREDIENTS	
Technical Chlordane*	30%
INERT INGREDIENTS	99.65%
TOTAL	100.00%

*Equivalent to .21% Octachloro-4,7-methanotetrahydroindane and .14% Related Compounds.

DIRECTIONS

When to Apply
TURF MAGIC LAWN FOOD containing chlordane is effective anytime during the year, however best results can be expected when it is applied in early spring. This will prevent damage from grubs during summer months.

How Much to Apply
Apply at the rate of 2 $\frac{1}{2}$ per 100 sq. ft. Contents of this bag covers 2500 sq. ft. or an area 50 x 50 ft.

How to Apply
To obtain best results TURF MAGIC LAWN FOOD containing chlordane should be evenly applied with no skips or misses. It is recommended that the area be covered twice. Apply one-half the application, then apply the remaining half at right angles to the first to assure thorough coverage. Water thoroughly. Avoid run-off. Birds feeding on treated areas may be harmed.

MAGNOLIA WEEDS PLUS FEEDS FERTILIZER 10-5-5

plus catalysts

U.S.D.A. Reg. No. 9123-x

Active Ingredients:

- Technical chlordane* 0.60 %
- 2, 4-dichlorophenoxyacetic acid 0.50 %
- Silver (2- (2, 4, 5-trichlorophenoxy) propionic acid 0.15 %
- Inert Ingredients: (relative to herbicide - insecticides). 98.75 %

*Equivalent to 0.36 % Chlordane and 0.24 % related compounds

CAUTION: KEEP OUT OF THE REACH OF CHILDREN.
See back panel for additional cautions.

Net wt. 40 lbs.

Mfg. by Magnolia Fertilizer Co., Seattle, Wa.

back

Catalyst A-10 makes fertilizer work better, faster. Helps grass roots pick up fertilizer more easily for quicker greening. Helps prevent fertilizer runoff that starve a lawns high spots, & overgrows low spots; for more even greening and growth.

Catalyst C makes weed killer more effective. Helps weed killer to cover, adhere to and penetrate the weed leaf for better weed destruction. Weeds plus Feeds will not burn when applied according to directions.

DIRECTIONS: Apply when weeds are young and actively growing.

1. Before application sprinkle lawn using a fine misty spray.
2. Apply Weeds plus Feeds evenly with fertilizer spreader. See spreader chart below. Avoid overlapping.

Do not water for 24 hours after application unless temperature remains over 70° F. Watering should then be done 12 hours after application. Water thoroughly.

	pig weed	sorrel	mustard	

Plant food analysis:

- Total Nitrogen (N) 10 %
- Available Phosphoric acid (P₂O₅) 5 %
- Soluble Potash (K₂O) 5 %
- Magnesium (Mg) from dolomite 2 %

Ingredients: Urea Formaldehyde, tankage, ammonium phosphate, urea, ammonium sulfate, muriate potash, manures, calcium & magnesium carbonates, vermiculite and herbicides & insecticides as shown on front.

CAUTION: COMBUSTIBLE MIXTURE

Long range jet spray kills wasps, hornets, bees, yellow jackets. Shoots a lethal jet spray into nests, crevices, holes, etc. from 12 feet or more.

DIRECTIONS FOR USE: Remove protective cap. Point nozzle towards nest, crevice or hole where infestation or insects are known to be inside. Press valve all the way down until area is saturated with this insecticide. Also spray around this area until completely wet with blitz jet spray. This treated surface will have a residual killing action and prevent reinfestation. In the event the insecticide film becomes ineffective due to rain or other causes, repeat treatment. For outdoor use only.

CAUTION: Keep out of reach of children. Do not apply on persons. In case of skin contact wash with soap and water. Repeated or prolonged contact with skin can cause toxic symptoms. Harmful if swallowed.

Do not spray on pets or other warm blooded animals. Do not apply on vegetation. Do not spray on asphalt tile. Contents of this container are under pressure. Do not puncture container or dispose of same in fire. Container should not be stored in sunlight or where temperatures exceed 120° F. Do not use near fire or open flame.

ACTIVE INGREDIENTS: Pyrethrins 0.15% technical piperonyl butoxide *0.30%, n-octyl bicycloheptene Di-carboximide 0.53%, technical chlordane **2.00%, petroleum distillate 62.02%.

INERT INGREDIENTS: 35.00%

*Equivalent to 0.24% (butylcarbityl) (6-propylpiperonyl) ether and 0.6% other related compounds.

**Equivalent to 1.2% octachloro-4, 7-methanotetrahydroindane and 0.8% of related compounds.
