ECONOMIC POLICY REGISTERED  
NO. 8954-2

### DIRECTIONS FOR USE

Hold container upright, nozzle away from you. Press valve down and spray as directed.

#### FOR THE CONTROL OF HOUSEHOLD INSECTS

To kill flies and mosquitoes use following direction.

Shut doors and windows and spray room at the rate of 5 to 6 seconds per 1000 cubic feet. Keep room closed for at least 15 minutes after spraying.

To kill Roaches & Silverfish: Spray directly into cracks, crevices and other secluded places. Direct spray at insects when they appear.

To kill Ants: Spray directly on insects and ant trails and other places where ants congregate.

#### FOR THE CONTROL OF GARDEN INSECTS

For use on roses, dahlias, asters and other ornamentals to kill Japanese Beetles hit by spray, as well as aphids, exposed thrips and spider mites.

When spraying plants, do not operate closer than 18 inches. Use sweeping motion. Spray in one second bursts. Do not wet foliage or blossoms.

May be used on plants, as a multi-purpose spray in small gardens, and for spot treatment of incipient insect infestations to prevent spreading in large garden areas.

Effective, when used as directed, against aphids, spider mites, exposed thrips, lace bugs, Japanese Beetles, pavement ants, clover mites and army worms.

**CAUTION:** Harmful If Swallowed. Cover Fishbowls while spraying.
