**DIRECTIONS FOR USE:**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**APPLICATION AND DOSAGE RATES:**

For maximum effectiveness, pools containing a heavy growth of algae should be cleaned prior to starting the use of POOLTRINE®. Pools having visible algae growth should be treated with 32 oz. per 10,000 gallons of pool water. Then about 24 hours later, the algae debris should be removed by standard cleaning procedures, including brushing loose algae spots, vacuuming the pool, and backwashing the filter.

For treatment of a freshly cleaned and filled pool, add initially 18 oz. per 10,000 gallons of pool water. To maintain pools free of visible algae growth, they should be treated with 6 oz. per 10,000 gallons of pool water every week after the initial treatment. Dilute POOLTRINE with at least nine parts water before applying. Pour required amount of POOLTRINE into a plastic watering can and fill with water. Maintaining constant pool circulation, sprinkle solution around edge of pool.

POOLTRINE is compatible with other chemicals commonly used to treat swimming pools and it is effective in both acid alkaline pH ranges. It can be used in pools treated with chlorine chemicals, and its use may reduce the amount of these chemicals normally required.

**IMPORTANT NOTE:** Always apply chemicals separately. Never combine them.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** POOLTRINE may cause skin damage. Harmful if swallowed. Do not get on skin, eyes or clothing.

**STATEMENT OF PRACTICAL TREATMENT:**

**FIRST AID:** In case of contact, wash thoroughly. For eyes wash thoroughly and get medical attention. If swallowed, promptly drink large quantities of water. Avoid alcohol. Call a physician immediately.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish. Keep out of lakes, streams, ponds, or public water. For guidance, contact the regional office of the Environmental Protection Agency.

**STORAGE & DISPOSAL:**

Store in original container in cool dry place. Keep container closed when not in use. Do not reuse empty container. Rinse thoroughly, wrap container and put in trash collection.
