Subject: Revised First Aid Statements PR Notice 2001-1  
Pooltraine  
EPA Registration Number 8959-26  
Application Dated March 18, 2002

Dear Ms. Radtke:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended is accepted with comments:

**Proposed Amendment:**

- revised First Aid statement PR Notice 2001-1

**General Comments:**

1. Delete the subheading "Statement of Practical Treatment" from the first aid statement
2. Add the following before the storage and disposal instruction, i.e. Pesticide Storage..... Container Disposal
3. The ingredient statement must total 100%

### DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling

### APPLICATION AND DOSAGE RATES:

For maximum effectiveness, pools containing a heavy growth of algae should be cleaned prior to starting the use of **POOLTRINE**. Pools having visible algae growth should be treated with 32 oz. per 10,000 gallons of pool water. Then about 24 hours later, the algae debris should be removed by standard cleaning procedures, including brushing loose algae spots, vacuuming the pool, and backwashing the filter.

For treatment of a freshly cleaned and filled pool, add initially 18 oz. per 10,000 gallons of pool water. To maintain pools free of visible algae growth, they should be treated with 6 oz. per 10,000 gallons of pool water every week after the initial treatment. Dilute **POOLTRINE** with at least nine parts water before applying. Pour required amount of **POOLTRINE** into a plastic watering can and fill with water. Maintaining constant pool circulation, sprinkle solution around the edge of the pool.

**POOLTRINE** is compatible with other chemicals commonly used to treat swimming pools and it is effective in both acid and alkaline pH ranges. It can be used in pools treated with chlorine chemicals, and its use may reduce the amount of these chemicals normally required.

**IMPORTANT NOTE:** Always apply chemicals separately. Never combine them.

### PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION:** **POOLTRINE** may cause skin damage. Harmful if swallowed. Do not get on skin, eyes or clothing.

### STATEMENT OF PRACTICAL TREATMENT

#### FIRST AID

**If in Eyes:** Hold eyelids open and rinse slowly with water for 15-20 minutes. Remove contact lenses if present after 5 minutes then continue rinsing eye. Call poison control center or doctor for treatment advice.

**If Swallowed:** Call a poison control center immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person.

**If Inhaled:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

**If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

### ENVIRONMENTAL HAZARDS

This product is toxic to fish.

### STORAGE AND DISPOSAL

Store in original container in a cool, dry place. Keep container closed when not in use. Do not reuse empty container. Rinse thoroughly, wrap container and put in trash collection.
